Firing of Employes Probe to Be Asked

APPROVAL GIVEN HIGHWAY PLANS OF NINE STATES

Louisiana's Road Schedule Is Among Those U. S. Sanctions

TO EXPEND HUGE SUM

Public Works Administration Whittles On Flood Control

WASHINGTON, July 18.—(AP)—The expenditure of $40,000,000 more on roads in nine states was approved Tuesday by the public works administration in its job-giving drive.

This brought to $166,532,000 the total out of the $400,000,000 road fund already allocated to 24 states; other apportionments will follow. The states told Tuesday that their schedules are satisfactory were Idaho, North Dakota, Maine, West Virginia, Delaware, Louisiana, Florida, New Hampshire and Montana.

At the same time the public works administration was trying to whittle down a $90,000,000 river and harbor and flood control program on orders from President Roosevelt to eliminate all unworthy projects.

Allocation of further money for federal projects was awaiting a report from the budget bureau to which was assigned the task of cutting down a $750,000,000 program for federal buildings so as to take out any "pork barrel" structures.

This is to be acted upon Wednesday by the cabinet board in charge of public works.

Under the plans for spending road money approved Tuesday, all of the states except West Virginia proposed to use 50 per cent of their allotments on the federal aid highway system; 25 per cent on extensions to the system through municipalities; 25 per cent on secondary or feeder roads. West Virginia's distribution was 45 per cent, 30 per cent and 25 per cent respectively.

The states, their allotments and number of counties in which the money will be spent included:

Louisiana $5,828,591 in 56 of the 64 parishes; Florida $5,231,834 in 52 of the 67 counties.

FEDERAL CONSTRUCTION PROJECTS ARE LISTED

TUGWELL GIVES HIGHWAY PLANS

Work On Projects In 56 Parishes to Be Started Shortly

NEW ORLEANS, July 18.—(AP)—A. P. Tugwell, chairman of the Louisiana highway commission, announced here Tuesday that work on road projects in 56 of the state's 64 parishes will be started in 30 to 40 days, furnishing employment to thousands of men, as a result of federal approval of Louisiana's $5,828,591 allotment in the gigantic proposed highway program.

He said that as soon as the highway commission was formally notified of the approval, it would advertise the projects. One of the largest of these, he said, would be a $1,200,000 bridge on the Jefferson highway to span the Bonnet Carre spillway between Baton Rouge and New Orleans.

Tugwell said there would also be further improvement of the New Orleans eastern outlet over the Chef and Rigolets.

Other projects mentioned included:

Bayou Bienvenu bridge, Orleans-St. Bernard parishes.

Surface treatment from Franklington north to the Mississippi line.

Embankment construction and drainage preparatory to paving from Tangipahoa to the Mississippi line.

Surface treatment for four to five

HELP PLEA WRITTEN UPON POSTAL CARD

CHICAGO, July 18.—(AP)—Some one slipped a post card into the hands of a mail carrier Tuesday and the police had another kidnaping mystery or another hoax to investigate.

The postman turned the card over to police without any description of the person who gave it to him. The card bore a note in red pencil reading:

"I am a prisoner in a car, license number 240,723, a Buick sedan. The guys are holding me for money. Somebody please notify police. My name is John Waldo from Texas. We will be in front of 461 Milwaukee avenue at 11 p.m. July 18."

On the other side, also in red pencil, was: "Please pick me up."

Jes' Ramblin'

ABOUT THE TOWN

By H. H. B.

Some nights ago, an innocent looking pony, tied near the shelter house of the street railway at the end of Lee avenue, caused so much concern to a motorman that he called the police, informing that there was a bold, bad holdup man "out there in the darkness." getting ready to make a "haul." Bu there was no such warning when a hijacker descended upon the six unarmed and sleepy motormen, Saturday night, as they rode the "owl" car homeward. The men easily had one of the thrills of their lives and one that they won't care to have repeated. H. S. Harrison, acting as motorman at the time, has been held up a total of three times now, and he's not a bit keen for the stuff. He says he has the record among his associates now. When the bandit approached, he ordered the boys to hand over the money. It didn't take long, either. Then the hi-jacker asked if the men had any personal funds. All declared that they were penniless and the robber instituted no search. But as the "yegg" was about to spring from the car with his money bags, property of the city, associates declare that big-hearted "Big Boy" Anders, pulled out a "V" and called him back. Here's $5. Take this!" he is reported to have said.

* * *

There was an exciting time at the natatorium the other day. Some lad, on mischief bent, managed to secure a large wasp's nest, which he slid with utmost caution into a capacious paper sack. Then he saw that the top was carefully held closed by a string. The sack was placed high on a shelf in the concession room to await developments. These resulted about a half hour later when a second fellow appeared, friend of the originator of the idea. "Say, Bill," called the practical joker to his pal. "Get one of my sandwiches from that big bag up there. I've got far more than I can eat myself." No second invitation was required. In an instant, open came the bag and out came the WASPS, now made plenty angry by their imprisonment. They made a lunge for the lad who had opened the sack, and surrounded his head in a black cloud. He dropped to the floor. Others in the place fled out into the open and pandemonium reigned supreme for the next few minutes. Ultimately the wasps were cleared out of the room, smarting stings were bathed in medicine and the even tenor of things once more proceeded to run on undisturbed. What happened to the joker has not been told.

* * *

One day, recently over the radio there was broadcast the stirring events of the Battle of Gettysburg. Many Monroe radio fans listened in with much enthusiasm. But only one person in this city, perhaps in the state, was numbered in the throng who had himself gone through the famous scenes. That man was "Uncle Dan" Breard, who has a most vivid memory of what happened before his eyes on that memorable day.

* * *

Billy Higginbotham, sophomore from Tulane, came smiling in on the boys at the office Monday. He's still got that winning way about him that makes the girls admit, in their vernacular, "He's a honey." . . . Pete Lamkin is reported of late to be observing with keen eye the successful financial moves made by Dr. J. P. Brown. He's further reported to have remarked that the doctor has "made so much money recently that it wouldn't be anything surprising if he developed a case of gout."

PRICE INCREASES MEAN 2 BILLIONS TO U. S. FARMERS

Recovery Program, Unfavorable Crop Reports Aid Planters

PROFITS SEEN FOR '33

Corn Gain Greatest; Cotton, Wheat and Oats Soar Upward

(Copyright, 1933, by the United Press)

WASHINGTON, July 18.—Booming commodity prices have increased the American farmer's cash and potential return on four leading crops by more than $2,150,000,000.

This huge gain, attributed partly to effects of the Roosevelt recovery program and partly to unfavorable crop reports, was calculated Tuesday on the basis of the increase in prices of cotton, corn, wheat and oats since March 1.

The figure takes into account the stocks of these commodities held by farmers on their farms and the value of their maturing crops on the basis of preliminary estimates of yield.

Its significance is best realized when compared with other depression statistics. It is, for example, equivalent to more than half the amount tied up in closed banks. It is almost equivalent to one-half the year's gross farm income, tentatively estimated at $5,143,000,000.

The increase alone, on the basis of these figures, more than equals the gross income of farmers from crops in 1932. By "crops" is meant all farm products sold by the farmer except livestock and livestock products. The return on crops last year was estimated in April at $2,113,000,000.

If the rise can be converted into crop dollars, it will turn a heavy de-

(Continued on Second Page)

GRAIN DELEGATES MAKING PROGRESS AT LONDON MEET

Fresh Setbacks Are Experienced In Silver Conversations

LONDON, July 18.—(AP)—Progress in negotiations for limiting wheat exports was counterbalanced Tuesday by a fresh setback in conversations regarding the use of silver as the world economic conference tottered toward its close.

The "big four" wheat producing nations—Argentina, the United States, Australia and Canada—were said by chief American wheat delegates to have reached an agreement with four Danubian countries whereby exports from the latter countries will be held to 54,000,000 bushels this year and 50,000,000 bushels next year.

Subsequently the "big four" representatives prepared to resume negotiations with Russia regarding a like project, and to take up similar proposals with European importing nations with a view to inducing those countries to abandon some of their import restrictions on the cereal.

The silver committee, slated to convene after a recess of several days, was unable to assemble until Wednesday, and it was reported that India objected to an export quota for silver which the United States had suggested and that Spain had raised sharp objections to a restrictive agreement on its monetary silver.

Italy is said to be the only one of the European gold countries unwilling to increase its use of silver, while the Dutch have promised to submit a proposal against further debasement of existing silver coinage.

It was reported in informed conference quarters that a drastic revision of Senator Key Pittman's latest silver

(Continued on Second Page)

CUSTOMS OFFICIAL SWORN IN TUESDAY

WASHINGTON, July 18.—(AP)—James H. Moyle of Salt Lake City, a former assistant secretary of the treasury was sworn in Tuesday as commissioners of customs.

Moyle took the oath even before the White House had formally announced his appointment, but it was explained at the treasury that it was a departmental appointment with President Roosevelt's approval. Moyle was assistant secretary of the treasury in the last Wilson administration. He succeeds Frank X. A. Eble, who resigned last February to accept a position as treasury attache in Berlin.

Times-Picayune Buys The States

Afternoon Paper to Be Continued With Publication Six Days a Week—Sunday Papers Will Be Merged.

NEW ORLEANS, La., July 18.—I desire to announce that the New Orleans States, heretofore solely owned by the heirs of my father, Col. Robert Ewing, Monday passed to the ownership of the Times-Picayune Publishing company.

Under the terms of the sale the New Orleans States will continue to be published as a six-day newspaper in the afternoon field.

The Sunday edition of the States will be merged with the Sunday edition of the Times-Picayune.

Mr. James L. Ewing, president; Mr. J. Walker Ross, long editor; Mr. Toulmin H. Ewing, circulation director, and Mr. James E. Crown, city editor, will continue to be associated with the staff of the States, as well as various other executives and employes.

I feel sure that under its new ownership the States will become even a better and more prosperous paper than it has ever been.

I wish sincerely to thank the gentlemen mentioned above, and all the other employes of the States for the consistently loyal support they have given the paper during their connection with it; and last but not least I wish to extend my sincere appreciation to Mr. Henry P. Dart, his son and

HARRIMAN'S BOND IS FORFEITED BY ACTION OF COURT

Close Watch Being Made For Reappearance of Accused Banker

NEW YORK, July 18.—(AP)—Federal Judge Francis G. Caffey Tuesday ordered forfeited the $25,000 bail under which Joseph W. Harriman, the banker who disappeared Monday from a nursing home, had been at liberty, pending trial on charges he falsified the books of the Harriman National Bank and Trust company.

Judge Caffey ordered a bench warrant issued for Harriman's arrest.

The court's action came when the inquiry to determine whether Harriman was mentally fit to stand trial on the indictment was scheduled to be resumed.

Captain John W. Johnston, railroad police official at Jersey City, said Monday night that Harriman, soon after he walked out of a Manhattan nursing home, made two attempts to jump from ferry boats into the river.

The banker, who is 68 years old, made six ferry trips across the river between Manhattan and Jersey City,

WEATHER HOLDS LINDBERGHS DOWN

ST. JOHN'S, N. F., July 18.—(AP)—The strait of Belle Isle was blanketed by dense fog Tuesday and it appeared unlikely that Colonel Charles A. Lindberg and his wife would be able to make any air survey flights out of Cartwright. Throughout lower Labrador the weather was dull and cloudy.

The Lindberghs are on an aerial mapping expedition of Labrador and Greenland. Yesterday they made a four-hour flight over interior Labrador, obtaining an excellent view of the country in the vicinity of North West river. They brought their monoplane back to Cartwright at seven o'clock last night.

POLICE CONTINUE FRANTIC SEARCH FOR ALBANY MAN

Young O'Connell Believed Spirited Away In Boat Or Plane

ALBANY, N. Y., July 18.—(AP)—Frantic in their search for a single clue in the kidnaping of John J. O'Connell, Jr., authorities started afresh Tuesday with the primary task of reconstructing one of the most sensational crimes in the history of this ancient Dutch city.

With only one definite fact in their possession—that the nephew of the politically powerful O'Connell brothers, Ed and Dan, was kidnaped early July 7 for $250,000 ransom—investigators gave thought to several possible means of escape used by the abductors.

Discarding, temporarily at least, the previously accepted theory that 24-

Special Levies Add to Huge Tax Load Borne by Louisiana Citizens

Annual Bill to Special Tax Payers Equals Half Property Taxes

This is the thirtieth of a series of articles on assessments, taxation and the costs of government in Louisiana. The author, from long experience in public affairs, is thoroughly familiar with the subject and his purpose is to tell in simple language that all may understand how the state and its agencies handle the huge volume of funds derived from a greater variety of taxes, licenses, etc., than any other state has.

Through laws passed in 1932 as part of the state administration's fiscal program, Louisiana presents an annual bill to special taxpayers equal to more than one-half of the entire amount of the state's property tax. In 1932 property taxpayers gave the state $8,687,954.63 in settlement of its ad valorem tax invoice. Estimated receipts from special taxes imposed in 1932 are $4,870,000 per year. This total does not include the beer tax, provided for in 1933. The beer tax does not bear the same relation to public opinion as he other special levies. Louisiana wanted the beer tax; with the exception of the dairy products tax, it did not want the others.

An inadvertent misstatement appeared in Thursday's story on salary expenditures in the offices of the secretary of state, state auditor and state treasurer. The salary figures given were said to represent the monthly salaries of employes of the secretary of state. They actually represented quarterly salary payments. However, the salary figures for the auditor and treasurer were properly placed on a monthly basis. This statement is made to keep the record straight.

Individual items of the Long-Allen special tax bill follow:

Estimated Annual Receipts of Special Levies Reach $4,870,000

Nature of levy.	Estimated annual receipts
Tobacco tax	$2,500,000
Corporation tax	1,000,000
Insurance premium tax	595,000
Electric power tax	300,000
Kerosene tax	180,000
Soft drinks tax	130,000
Tax on dairy products	90,000
Gasoline inspection tax	75,000
Total	$4,870,000

The corporation and electric power taxes are just now becoming collectible; and the estimates given are those of the administration itself. In all other cases, estimates are based on actual collections. The malt tax, reimposed in 1932, is not included in the above total for the reason that this levy is becoming negligible because of the return of beer. The shrimp and oyster tax (act 134 of 1932) collected by the commissioner of conservation and remitted with other conservation taxes; and the tax on sulphur (act 163 of 1932) collected by state tax collectors and remitted with other severance taxes, are also omitted. It is impossible to give specific amounts in either of these cases, but the aggregate collections will naturally swell

2ND SESSION PLANNED

Members Are Divided As to Necessity of Forceful Action

WASHINGTON, July 18.—(AP)—William Green, president of the American Federation of Labor, said Tuesday he planned to demand investigations of any discharges of employes under the shorter work week in industry.

Green said a number of instances had been called to his attention where workers had lost jobs with application of a shorter week. He told newspapermen this was the opposite intention of industrial codes which are intended to spread employment.

"I will insist upon investigations of such cases coming to my attention," Green said.

The federation chief also said a number of complaints were being received that employers were favoring non-union as opposed to union labor and that where discharges were taking place the union men were going. He said this situation also should be

2 DIXIE STATES VOTE ON REPEAL OF PROHIBITION

Wets Hope to Reach Half-Way Mark In Erasing Dry Amendment

LITTLE ROCK, Ark., July 18.—(AP)—Claiming the honor of being the first precinct in the state to report its complete vote in the referendum on the eighteenth amendment, Upper Hill township in Prairie county, Tuesday cast 44 votes for repeal and one against. All eligible voters in the township had voted by 10:30 a.m.

BIRMINGHAM, Ala., July 18.—(AP)—Completed counts of absentee ballots in three counties and one small ballot box in Alabama Tuesday at 12:30 p.m., gave, for repeal 105, against 59.

The one small box was in Dallas county where all 18 votes cast were for repeal. In Morgan county the trend for repeal was 2 to 1, and in DeKalb, a rural mountain county, the vote was 4 to 1 against. Sumter voted 21 for and 21 against.

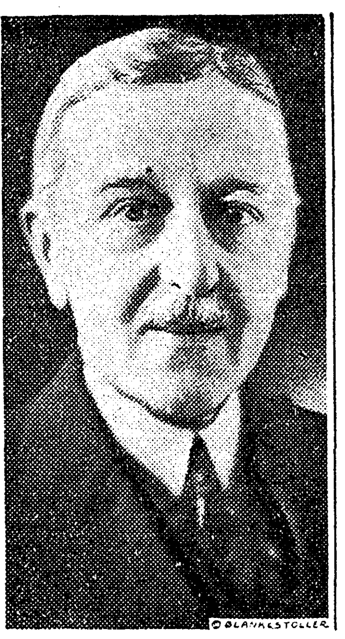
(By Associated Press)

Repeal forces racing to reach their goal before Christmas strove to round the half-way post in the south Tuesday while prohibitionists sought to send them sprawling.

Arkansas and Alabama threw open voting booths Tuesday to decide their

(Continued on Second Page)

MAY QUIT POST



SECRETARY WOODIN

RUMORS PERSIST THAT WOODIN IS TO QUIT CABINET

Reports Receive Heated Denials; Secretary's Health Poor

WASHINGTON, July 18.—(U.P.)—Despite heated official denials, the belief persisted in circles close to the administration Tuesday that Secretary of the Treasury William H. Woodin would resign from the cabinet before the end of summer.

Although the latest revival of reports he would resign met the prompt reply that "Mr. Woodin is expected back at his desk next week," there were well-informed persons who believed the secretary's health might cause him to step from the cabinet.

Others thought disclosure of Woodin's "bargain" stock purchases from J. P .Morgan and Co., several years ago might be the motivating influence that would decide him to retire politically.

Woodin is recuperating from throat trouble, his second attack in recent months. Soon after taking office he was forced to his bed. Later a recurrence compelled him to take a longer rest at his New York home.

Three men received prominent mention as possible successors. They were Senator James Couzens, Republican progressive of Michigan; Frank Walker, Democratic national treasurer and now "co-ordinator of co-ordinators"

MAN IS ARRESTED IN STORE ROBBERY

F. H. McLelland Turned Over to Police By Irate Taxi Driver

F. H. McLelland, 35, is alleged to have robbed Sur Wa Store No. 1, at Jackson street, opposite Ouachita avenue, shortly after 2 o'clock Tuesday morning. He is then asserted to have called a taxi to carry away the groceries that he had piled on the sidewalk near the store. The groceries were taken to 400 Washington street at instructions of McLelland. But then the taxi driver, Troy T. Bussey, and McLelland got into a squabble as to payment of the fare and the former drove his man to the police station. Bussey explained what had been going on and McLelland was arrested for robbery. The prisoner was said to be intoxicated at the time.

Desk Sergeant F. H. Ham, went with the taxi driver to the Washington street house and recovered the groceries, which were removed to the police station.

When the prisoner was searched by the officers he was found to have the keys to the Sur Wa store in his possession.

Tuesday morning, McLelland was

Southern Kraft Workers Are Given Wage Increase

MOBILE, Ala., July 18.—(AP)—Major John Friend, vice-president of the Southern Kraft Corporation, announced Tuesday a ten per cent wage increase for all employes. It was not stated whether this represented a make up for previous wage cuts.

Employes affected are in plants operated at Camden, Ark., Bastrop, La., Moss Point, Miss, Plateau, Ala., and Panama City, Fla.

AMERICAN FLIER PUSHING TOWARD HOP-OFF PLACE

Doughty Aviator Speeding Toward Khabarovsk On Pacific

STOPS AT NOVOSIBIRSK

Oklahoman Takes Off After Short Rest; Battles Bad Weather

IRKUTSK, Siberia, July 18.—(AP)—Wiley Post, American round-the-world flier landed here at 3:35 p. m. Moscow time Tuesday (7:35 a. m. E. S. T.).

He planned to take off again at 11:00 o'clock Tuesday evening (3:00 p. m. E. S. T.).

WILEY POST IS WELL AHEAD OF FORMER TIME

NOVOSIBIRSK, Siberia, July 18.—(AP)—Well ahead of the time he made for a similar distance in 1931, Wiley Post streaked for Irkutsk, Siberia, Tuesday, just two hours and 35 minutes after finished an 1,818-mile flight from Moscow.

The doughty American around-the-world flier swooped down on the Novorsibirsk field at 6.27 a. m. (10:27 p.m. Monday, E. S. T.) And then, tired almost to the point of exhaustion, took off again at 9:02 a. m. (1:02 a. m., E. S. T.) with the intention of getting some badly needed rest at Irkutsk.

He had left the Soviet capital at 5:12 p.m. Monday (9:12 a.m., E.S.T.) and arrived here 13 hours and 15 minutes later, and 66 hours, 17 minutes after leaving New York.

The Oklahoman had planned to fly directly to Khabarovsk, Siberia, his scheduled jumping-off place for the trans-oceanic jaunt, but bad weather, which had dogged him most of the way from the Ural mountains to Novosibirsk and caused him to land twice before reaching the latter point forced to him to decide to spend the night in Irkutsk rather than try to go on to Khabarovsk.

Weather reports given him during the brief pause here told of extremely unfavorable flying conditions all the way to Khabarovsk.

He was 16 hours and 57 minutes ahead of the time he and Harold Gatty took for a like distance when he left, for the pair stayed here nine

(Continued on Second Page)

PLOW-UP COTTON PLAN REVEALED

Administrators Decided Formal Acceptance Not Necessary

WASHINGTON, July 18.—(AP)—Farm administrators Tuesday made public a plan under which cotton farmers who signed agreements to curtail their output this year will be permitted to plow up portions of their fields without having to wait for formal acceptance of their offers.

The action was taken to permit farmers in some of the cotton producing areas where climatic conditions are favorable immediately to plant feed crops for home consumption.

This telegram was sent to county agents notifying them of the new plan:

"The secretary of agriculture has authorized acceptance and approval of all producer contracts where same are approved by county agent and county committee.

"Printed instructions and emergency permit blanks are on the way to be used by farmers to secure permits from county agents to destroy immediately cotton without having to await arrival of formal acceptance blanks.

"Instructions and emergency permits should reach you Friday.

"In no event shall producer begin the destruction of his cotton crop until his application has been approved and a permit issued by the county agents."

The application for a permit to take land out of production does not relieve the producer of the requirement of executing the formal accept-

(Continued on Second Page)

COUZENS OPPOSES ACTION ON DEBTS

LONDON, July 18.—(AP)—Senator James Couzens of Michigan insisted Tuesday that intergovernmental debts, including the war debts, be definitely outlawed from any action on indebtedness by the world economic conference.

This was the first flareup about the war debts since Prime Minister Ramsay MacDonald injected the issue into the conference in its first week.

The drafting committee on international debts finally adopted a resolution on the problem with an amendment by Senator Couzens specifying that intergovernmental debts were not included.

AIRPLANE BERTHS TO BE INSTALLED TO WEST COAST

Monroe Passengers Soon to Be Able to Enjoy Innovation

Monroe airplane passengers will soon be able to sleep in comfortable berths several thousand feet up in the air when they are flying through the hours of night between Dallas and Los Angeles, stated A. S. Aldridge, local traffic representative of the American Airways, Tuesday.

These flying berths are already in use between Cleveland and Los Angeles and other lines are to have similar conveniences soon.

The berths, made by folding two of the plane's soft cushioned chairs, form a perfect horizontal cot. These cots are then made up with linen and blankets by the co-pilot. Each of the trimotored planes accommodates six sleeping passengers.

The large number of trans-continental passengers who have tried out the new flying berths have been enthusiastic over this innovation in air travel, according to L. B. Manning, chairman of the board of American Airways, who at the same time predicted that even greater strides will be made within a short time on sleeping accommodations for air passengers.

APPROVAL GIVEN HIGHWAY PLANS OF NINE STATES

from the public works funds includes:

Department of agriculture:

Bureau of chemistry and soils, and agricultural engineers:

Tyler, Tex.—Construct buildings, roads and soil equipment—$10,100.

Bureau of dairy industry:

Uvalde, Tex.—Construct animal insectary, garage, insect trap and chicken coop, $1,500.

Bureau of plant quarantine:

El Paso, Tex.—Fence and repair railway car fumigation plant—$17,350.

Weather bureau:

All items for repairing buildings:

Oklahoma City—$500.

Abilene, Tex.—$250.

Amarillo, Tex.—$350.

Department of commerce:

Bureau of aeronautics:

Combine radio facilities so as to provide for standby equipment in 57 cities on the principal air lanes—$285,000.

Bureau of light houses:

Galveston, Tex.—Depot building, storehouse—$21,600.

New Orleans—New lighthouse tender to replace cosmos—$150,000; oil burning equipment for lighthouse tender Magnolia—$65,000; Diesel engine for tender Camelia—$59,000.

Galveston, Tex.—Riprap protection lightstation—$25,600.

Louisiana—Riprap protection lightstations at Rebecca Shoal, Barataria Bay, Timbalier, S. Pass West Jetty light and F. S.—$23,500.

New Orleans, La.—Materials for reconstructing minor lights—$8,000.

Texas—Revise minor light systems, Galveston Bay, Corpus Christi, Brazos, Santiago, Aransas Pass—$24,280.

Houston, Tex.—Move eight lights—$10,200.

Sabine Canal, Tex.—Revise aids—$7,500.

Department of interior:

Geological survey:

Oklahoma—Safeguarding mine openings—$303,200.

Bureau of reclamation:

Reclamation projects:

Boulder Canyon—$28,000,000; machinery—$10,000,000.

Department of labor:

Bureau of immigration:

New Orleans—Replace boiler and power house alterations—$5,000.

TUGWELL GIVES HIGHWAY PLANS

miles of the road from Louisiana State university south toward Gonzales.

Eight miles of paving from Lavonia west to Krotz Springs.

Seven miles of paving from Lebeau south toward Krotz Springs.

Seven miles of paving from Port Barre east toward Krotz Springs.

Eight miles of paving from Elton to Basile and from Eunice to Basile in strips of four miles each.

Twenty miles of paving from Alexandria to Glemora, completing northern end of route joining the Old Spanish Trail at Iowa Junction.

Tugwell said numerous smaller projects would be started "in practically every part of the state." Much of it to link up unpaved gaps.

Supervision of the work will be in charge of the public works administrator to be named by the government. Federal Judge Rufus E. Foster has been mentioned for this post. Workers will be drawn from lists of unemployed.

Loss of Appetite

May Mean You're Rundown!

When your appetite goes back on you and you feel weak, tired and depressed, it's a sign you're rundown and in need of a good tonic. There is nothing better than Grove's Tasteless Chill Tonic.

Grove's Tasteless Chill Tonic contains both iron and tasteless quinine in highly concentrated form. Iron, to build the blood; quinine, to act as a blood purifier. These two effects make Grove's Tasteless Chill Tonic an exceptional medicine. Try it for three days and notice the results. Appetite improved, pep and energy renewed. Grove's Tasteless Chill Tonic is pleasant to take. Absolutely no taste of quinine. Even children like it. Get a bottle today and enjoy the zest that makes life worth while. Sold at all stores. Times-Picayune Buys The States

(Continued from First Page)

associate, Mr. Benjamin W. Dart, for their wise counsel and unfailing services to the States and myself, which have contributed so largely to its success during these lately trying times.

JOHN D. EWING,
Trustee, Robert Ewing estate.

In disposing of the New Orleans States to the New Orleans Times-Picayune, we feel that the best interests of the reading public, the business community and ourselves have been served.

For years, and especially during the depression, the fact has been recognized here and throughout the country that New Orleans was suffering from too many daily papers, under separate ownership and published in individual plants—a situation that was economically unsound, and unprofitable both to the business community and the publishers themselves. The disastrous failure of two of our largest banks, with restrictions on others, made this already bad situation worse.

Hence, when the owners of the Times-Picayune, fully cognizant of conditions in the local newspaper field, without solicitation on our part, tendered to our brother, Mr. John D. Ewing, trustee of our estate, what he considered a fair offer for the name, Associated Press membership, contracts and good will of the New Orleans States, with him we voted unanimously acceptance thereof, as did our stepmother, Mrs. Grace Nolan Ewing, who at the same time was settled with for her interest in our father's estate at a mutually satisfactory price.

In connection with the sale it is most gratifying to us to be able to say to the public that the New Orleans States will continue in the afternoon field and that Mr. J. Walker Ross, for over twenty years editor and for forty-eight associated with it; Mr. James E. Crown, long city editor, and many other executives and employes are to be continued in their old positions under the new ownership. It is our confident hope that the States will have the same growth and success it enjoyed for the many years it was in the sole ownership of the Ewing family.

Last, but by no means least, do we wish publicly and gratefully to extend our felicitations and acknowledge our indebtedness to our brother, John D. Ewing, for his unselfish, untiring and successful management of the Ewing papers and estate.

Plunged suddenly into the trusteeship during the depression, which was involving both the States and the Monroe papers into losses with the business and industrial outlook desperate everywhere, he courageously accepted what to many within and without the family looked like an almost hopeless responsibility.

The results speak for themselves. The States for the two years and three months of his general management has made a net profit. Our Monroe papers shortly made an operating profit and are now making a net profit. The Shreveport Times then was making and now is making a net profit.

It is unnecessary to say that only high capacity, tireless energy and profound devotion to duty on his part could have accomplished those results during the past two tragic years of economic depression.

Of even more importance to us and the general public is the fact that he has consistently maintained the fearless and independent editorial policies and the high ideals of our papers as handed down to us by our father.

The States and the other papers have continued to stand steadfastly for the general good of the people. They have fought extravagant spending of public money, against oppressive taxation, against crooked politics and government, from which this city and state have suffered and are suffering.

It is all the more to his credit that John D. Ewing has pursued unflinchingly this harder course when tremendous financial and political weapons were used to force him to follow an easier but less honest path. It is our trust and confident belief that under its new ownership there will be no departure from the policies and traditions that have made the States so widely respected.

To the thousands of loyal readers of the States, to its advertisers, and to its many faithful employes we offer our earnest and sincere thanks for the part they had through the years in making the States the great paper we believe it to be; and under its new ownership we hope and are sure it is going to move forward to a still greater destiny.

Signed, J. L. EWING,
TOULMIN H. EWING,
WILSON EWING,
ESTHER EWING BROWN,

HARRIMAN'S BOND IS FORFEITED BY ACTION OF COURT

Johnston said. A deckhand, seeing him climbing over the railing of an upper deck, grasped him.

"What are you trying to do?" the deckhand shouted.

"I just wanted to see how the understructure of the boat was made," the man answered.

"Who are you and where are you going?" the deckhand demanded.

The man mumbled that he would not answer any questions. The deckhand and other employes had seen pictures of the white-moustached banker and were positive that it was he. On a later trip, Johnson said, the man had one leg over the rail when a deckhand pulled him to safety.

A close watch was being kept Tuesday at Haverstraw, N. Y., where Harriman once owned business interests; at Belleville, N. J., his birthplace, and at Locust Valley cemetery, Long Island, where a son is buried. It was thought he might possibly head for one of those places to take his life.

His family doubted that he had more than a few dollars, and it was said he has no bank account.

The Harriman bank has been closed since the bank holiday.

PLOW-UP COTTON PLAN REVEALED

(Continued from First Page)

ances which will be sent out to individual producers.

The application also gives the secretary of agriculture the right to correct "all irregularities, imperfections, omissions and inaccuracies which may appear in the offer."

The producer is also required under terms of the permit to furnish proof of performance of his obligation to destroy the portion of his crop covered by the contract and no compensation will be sent growers until this proof has been received.

Meanwhile tabulators continued with the task of checking contracts received from nearly 1,000,000 farmers in which they have offered to destroy approximately 10,500,000 acres of the growing crop which is expected to reduce the output this year by at least 3,500,000 bales.

DISTRIBUTION OF FOUR MILLIONS ANTICIPATED

BATON ROUGE, La., July 18.—(AP)—Distribution of $4,272,543 among 51,950 Louisiana cotton farmers within the next few days as compensation for plowing up substantial portions of their crops in cooperation with the farm act cotton price stabilization program was anticipated Tuesday following announcement of compiled acreage reduction figures.

State Administrator J. G. Lee said the farmers had agreed to abandon 396,253 acres, and predicted that 9,762 contracts not yet completed would raise the eventual total of 500,000 acres.

The majority of the state's farmers preferred the government cash-with-option plan. Cash payments to growers choosing the cash payment off with option amounted to $2,414,375 with 108,581 bales to be optioned, while the cash payments without options totaled $1,858,168.

The abandonment pledges will reduce Louisiana cotton to about 1,400,000 acres, Marcel J. Voorhies, extension service statistician, said.

Figuring the curtailed state crop, with a lint average of 202 bales to the acre, at 562,000 bales, Voorhies said a $28 a bale price increase resulting from prospective success of the government campaign would result in a $15,758,000 "potential profit" to the Louisiana cotton farmers.

MAN IS ARRESTED IN STORE ROBBERY

(Continued from First Page)

given a grilling by officers. He stated that he has no recollection of what happened at the time of the robbery or immediately before it occurred. The police state that he is a brother of the manager of the store and that the prisoner evidently stole the keys from the latter. With these in his possession, he entered the store by the front door and collected what groceries suited his fancy.

The following goods were recovered by the police from the Washington street house; Four cans of barley malt, four cans of Blue Ribbon malt, two small loaves of bread, one bundle of rolls, five bars of soap, about eight pounds of cheese, six pounds of ham, one pound of steak, five packages of marshmallows, six cartons of cigarettes, 10 pounds of sugar and three oranges.

McLelland has in the past had a police record and has served time in the state penitentiary. On December 18, 1931, he was arrested for breaking into the Sur Wa store at 2800 Lee avenue. He was sentenced to serve a year in prison for that.

On February 11, 1933, he was arrested for an alleged hold-up of a street car on the Lee avenue line. The grand jury investigated the case but failed to return an indictment.

FORD CAR STOLEN

D. W. Hyde of 401 Washingon street, reported late Monday that a Ford roadster, belonging to him, had been stolen from its parking place in front of his residence. Police are working on the case.

PRISONER SLAIN IN MAKING DASH TO GET FREEDOM

George Tullos, 33, Killed By Deputy at Crossett, Ark.

CROSSETT, Ark., July 18.—(Special)—George Tullos, 33, an escaped prisoner from the county jail at Monticello, was shot to death late Monday night at Pugh Station, six miles north of Crossett. When after having been captured by Sheriff Riley and Deputy Earl C. Hill of Ashley county, he attempted to run away, he was shot by Deputy Hill who used a shotgun loaded with buckshot, death was almost instantaneous. He was shot in the back.

Tullos, former prize fighter and wrestler, was arrested in Drew county, several weeks ago, on a charge of burglary and grand larceny. He escaped from the new jail at Monticello last Thursday night. Ashley county officers learned he was at the home of a farmer named Kelly, six miles north of Crossett.

As they approached the home in the afternoon, Tullos ran into the woods. He was captured about two hours later. While being carried to Hamburg, he asked to be allowed to stop at the Kelley home to get his clothes. The sheriff demurred but the deputy agreed to accompany him.

As Tullos entered the room, he slammed the door and ran out of a back door. Deputy Hill hurried to the rear of the house and when he saw the prisoner running, he called him to halt.

"To hell with you," Tullos shouted, "you will have to catch me." A coroners jury returned a verdict of justifiable homicide, thus exonerating the officer.

2 DIXIE STATES VOTE ON REPEAL OF PROHIBITION

(Continued from First Page)

stand on the proposal to blot the 18th amendment from the constitution.

Tuesday night the foes of national prohibition will know whether they have garnered half the states necessary for repeal. Sixteen states had voted to ratify repeal up to Tuesday. Thirty-six are necessary to change the constitution.

Before the week is over 20 states, containing 49 per cent of the population of the United States will have recorded their will on the problem. Tennessee votes Thursday and Oregon Friday.

Arkansas and Alabama were the first strictly southern states to ballot on prohibition and both sides felt the result was fraught with much significance for their causes. Prohibition forces expressed confidence that if some of the southern states held fast to prohibition, they could put the final test over until next year and thus better their chances of preserving the 18th amendment.

The contests in the south drew heightened interest as a result of a public appeal from President Roosevelt for ratification. In a telegram to a Democratic national committeeman in Alabama, he said the platform of the Democratic party "should be carried out insofar as it lies in our power." The platform pledged for repeal.

Prohibition leaders hit the president's statement as "executive dictation." Dr. A. J. Barton, prohibition leader, appealing to Alabama and Arkansas, asked them to uphold the traditional dry stand of the south. He spoke Monday night in the same Memphis auditorium in which Postmaster General Farley had urged repeal Saturday night. Expressions of confidence came from both sides.

VOTE OF LESS THAN 150,000 IS FORECAST

LITTLE ROCK, Ark., July 18.—(AP)—The friends and foes of prohibition in Arkansas, "bone dry" four years before the national law, voted in a referendum on repeal of the eighteenth amendment Tuesday.

A vote of less than 150,000 was forecast.

It was an off-election year and there has been a heavy decline in poll tax payments, a requisite of voting.

Dry campaigners, many of them church leaders, canvassed the state raising the moral issue. States' rights and Democratic party loyalty were pleaded by repealists. Each side predicted victory.

In addition to marking ballots for candidates for a convention on repeal, voters had to answer whether they favored or opposed retention of the eighteenth amendment. The result will determine how the convention votes.

BOTH SIDES PREDICT VICTORY IN ALABAMA

BIRMINGHAM, Ala., July 18.—(AP)—Alabama, the state that until recently barred beverages that even looked like beer, wrote its verdict on prohibition in a repeal referendum Tuesday.

It was the second time in a quarter of a century voters have been called upon to act on prohibition. In 1909 constitutional prohibition was rejected 76,271 to 49,093 but rigid dry laws were imposed by the state legislature.

A vote of 175,000 was forecast. A fight over a proposed state income tax and a $20,000,000 warrant issue to fund the state deficit shared interest with the repeal question. Cloudy weather with local showers was forecast for the day.

The campaign of repealists was waged on the basis of returning state's rights and support of the national Democratic platform while anti-repealists argued prohibition was a moral issue upon which no party platform should be binding. Both predicted victory.

Alabama voted directly for or against repeal, election delegates to a convention to be bound by the majority on the direct test.

W. E. Poulan reported to the police the theft during the night of a casing, tube and rim from his car which was parked at 513 Catalpa street.

Given in Marriage -:-

A Sequel to "Heart of a Wife"

By ADELE GARRISON

Madge, much against her will, agrees with Lillian's suggestion that Mother Graham be informed of impending danger from the scheming Avis Arlen.

I FELT AS if I were a fish floundering in a seine as Lillian asked me whether I saw any other way out of the dilemma facing us than to tell my mother-in-law just what Avis Arlen was trying to do.

Dicky's mother has all of the sterling virtues, and few faults of character. Yet because of her captiousness and sensitiveness to slights, it is worth the Croix de Guerre—or so her son says—to broach any plan to her containing anything calculated to offend her sense of dignity.

Yet Lillian was telling me—and rightly—I knew—that I first must tell my mother-in-law that Dicky and I would be compelled to absent ourselves from this last dinner before the wedding of Mother Graham's oldest granddaughter, Mary Harrison, and then, in explanation of what she would consider a deadly insult to her daughter and son-in-law, the Braithwaites, must acquaint the feeble old woman with the menace to Mary's peace of mind which I felt Avis Arlen was bringing into the house.

But there was no other way out. I realized now that I had known it from the moment I had told Avis Arlen someone would meet her at Patchogue; and as it is never my way to dodge or to put off an evil moment, I threw up my head and answered Lillian.

Plans to Meet Avis

"No, there is no other way out, but I need your help. Harry, will you go up to his room, where Dicky is administering the high justice, the middle and the low to Junior and Roderick?"

"Good Godfrey! You don't mean he's tanning 'em?" Mr. Underwood exclaimed in lovely horror.

"No, indeed," I told him laughing, "just reasoning with them for the good of their souls. He'll tell you all about it. I haven't time. Tell him I want to see him in my room in five minutes if he can manage it. Also, will you have Jim bring Dicky's car around to the side door?"

"Anything else?" The big man lounged to his feet.

"Not now," I told him, and he moved swiftly toward the door.

"What's my job?" Lillian asked with a little laugh, but I sensed the comradely readiness to help that lay beneath her lightness.

A Difficult Task

"The hardest one," I told her. "Try to get Mother Graham in as pleasant a mood as possible in the next five minutes, and stand by afterward when Dicky and I shall have gone."

"Police! Also the state constabulary!" Lillian raised her hands in burlesqued appeal to the ceiling. "I'll tell the world you've given me a job."

Quickly I retailed Avis Arlen's reiteration that she must see Noel before his wedding, in order to "explain something very special, very precious, very sacred," between herself and Noel.

Lillian clenched her fists and shook them in the air.

"I haven't words," she said loudly, "but I'm with you on what I guess is your platform. She shall not pass. She shall never reach the Marne."

"Thank you," I said. "That's what I've resolved. I'm going now to enlist the youngsters in the holy war."

"They'll be your best bet," Lillian said as we parted.

Enlisting the Young People

I found Marion, Carolyn, Ronald and Bob in the little study, and their bright, alert faces were filled with curiosity and excitement as I sat down opposite them.

"Avis Arlen is plotting some mischief to Mary, I am sure," I began. "I don't mean physical injury, but —well, here's what she has told me."

I retailed swiftly the girl's attempts to have Noel meet her, and what she had said about wishing to see him. They heard me in respectful silence, but I had no sooner finished than they exploded into picturesque expletives which characterized Avis as the more unpleasant varieties of animal and insect life.

"There isn't any spray poisonous enough even to affect her," Marion said viciously, at last, "but I'm ready to go to the electric chair, if it's necessary to bump her off. How about you, Carol?"

"I'm with you," Carolyn said, with a vicious little snap of her teeth.

"We'll all go from the same guillotine," the boys promised gallantly.

"I don't think you'll have to go to such lengths," I told them laughing. "But I do want a pledge from each of you."

"Name it," they chorused.

"I want you to see to it that Avis does not see Noel alone for one minute before that wedding—or after it," I told them solemnly. "Can you do that?"

POLICE CONTINUE FRANTIC SEARCH FOR ALBANY MAN

(Continued from First Page)

year-old O'Connell was snatched from his automobile and driven in another car to a point of isolation, the authorities gave consideration to the theory that he might have been whisked away from this sector in a motor boat down the Hudson river, or in an airplane from Albany airport, which is located several miles outside of the city proper.

The motor boat theory was regarded as the more plausible, as a plane leaving the air field at 2 a. m. would attract considerable attention, and it would be necessary for the pilot to check his ship and passengers upon landing and departing from the field.

One authority suggested that the youth was taken to the Albany waterfront, a distance that could be traveled in an automobile from the O'Connell Putnam street residence in about five minutes, and placed aboard a boat in which he is either being held, or was taken down the river to a point in the Catskill mountains where he was again transferred to an automobile.

Carrying out the Hudson river theory, investigators were reported to be planning to sail the Hudson to look for any suspicious-looking craft.

EX-CONVICT QUESTIONED ABOUT ALTON KIDNAPING

ALTON, Ill., July 18.—(AP)—An ex-convict was being questioned Tuesday by department of justice operatives as the investigation continued into the kidnaping of August Luer, 77-year-old Alton banker who was released on a lonely country road early Sunday after being held five days.

Percy M. Fitzgerald of St. Louis, whose police record in that city and suburbs dates back to 1913, was arrested last night by police at Madison, Ill., just across the Mississippi river from St. Louis.

Known to the underworld as the "dice box kid," he was taken into custody at one of the haunts which he frequents after federal agents had been watching the place for two days. Later he was taken to the city jail in St. Louis.

The Fitzgerald arrest was the first tangible result of the department of justice investigation, which has been cloaked in the usual secrecy with which the federal agents work.

Luer was seized from his home here a week ago last night, and after five days of anxiety, appeared at a resort near Collinsville, Ill., and informed his family by telephone that he had been released.

Chief of Detectives John Kaiser of St. Louis, who has been working on the case, said Fitzgerald had been absent from his usual haunts during the last ten days.

Federal and local officers still were hopeful of finding the dark, ill-smelling sub-basement where the kidnap gang held the banker.

Members of the victim's family denied that ransom was paid.

RUMORS PERSIST THAT WOODIN IS TO QUIT CABINET

(Continued from First Page)

in the industrial recovery setup; and Joseph Kennedy, Boston banker and a Roosevelt campaign leader.

With two former Republicans, Secretary Ickes and Secretary Wallace, in the cabinet, some observers pointed out that should Woodin quit, the administration would not be likely to replace him with someone from the opposing party.

So far as Walker was concerned, it was reported he was happier where he was and had no desire to enter the cabinet. The same was said to be true of Kennedy, enjoying the cool of his Cape Cod summer home.

Helen Morgan Introduces Her Husband With Song

CHICAGO, July 18.—(AP)—"Nobody Wants Me," a song that helped raise Helen Morgan to stardom as a torch singer was discarded by her for another, "Along Came Bud," as she introduced her husband, Maurice "Bud" Maschke, Jr., of Cleveland before a Chicago night club audience.

The marriage took place last May 15 at Newcastle, Pa., and was a secret until Miss Morgan in characteristic position, atop a piano, sang her "Along Came Bud" song Monday night and the young Harvard law school graduate walked over to her side.

And as for the future—that's a matter that must be decided by her husband from now on. She said she was 28 and he was 25.

"We wanted to keep our marriage a secret for seven years," she said, "because we thought it was nobody's business."

Another reason for the desire for secrecy was because Miss Morgan and Maschke said they didn't know how his father, a former Republican national committeeman, would take the news.

But their fears on that score were removed when the elder Mrs. Maschke telephoned them that "father knows all and it's all right."

PRICE INCREASES MEAN 2 BILLIONS TO U. S. FARMERS

(Continued from First Page)

ficit from farm operations in 1932 to a tidy profit in 1933.

Grain prices have increased far more than 100 per cent while cotton has increased approximately 83 per cent since March 1.

The increased values were being most appreciably felt in the 16 cotton states, the great western wheat plains and the middle western corn belt.

In arriving at the estimate no allowance was made for the commodities in the hands of millers, in farm cooperatives or in factories. Nor was here any allowance made for the wheat now being harvested but which has been committed to sale in advance.

The current wheat crop, estimated at 500,000,000 bushels, is worth at market prices $385,000,000 more than at March 1, prices. In addition the wheat farmers moved from farm to market in April and May 100,000,000 bushels of wheat at an estimated average price increase of 20 cents a bushel. On July 1, they had on their farms another 79,000,000 bushels which by now has increased in price about 77 cents over March 1 figures.

The profit to wheat farmers, however, is less by half than the profit to corn growers, who in many instances must yet convert much of his crop to pork before he can realize on it. They show a paper gain of more than a million dollars on the basis of 65 cents corn against 25 cent corn in March.

Their stocks on farms, amounting to 620,903,000 bushels on July 1, plus an estimated crop of 2,384,000,000 bushels represent a total paper gain of $1,201,971,200.

No estimate of the current cotton crop has been made but a figure of 9,000,000 bales was believed fair. The increase from six to eleven cents a pound between March 1, and Tuesday, means a $25 gain on every bale, making a total of $225,000,000. To this may be added another $12,500,000 to take care of the small amounts of last year's crop still held by farmers.

GRAIN DELEGATES MAKING PROGRESS AT LONDON MEET

(Continued from First Page)

agreement draft is necessary before there can be any hope of accord.

The Nevada senator still remained hopeful, however, of action on his suggestion to increase the use of silver.

Meanwhile, delegates from the wheat countries prepared to take up discussions with important countries with a sub-committee of the economic commission.

AMERICAN FLIER PUSHING TOWARD HOP-OFF PLACE

(Continued from First Page)

hours and 13 minutes on their world flight two years ago.

At this point he had completed about half of his world journey. Irkutsk is about 890 miles farther on. The estimated distance from Irkutsk to Khabarovsk is 1,300 miles. Thus, Post will lose several hundred miles for Irkutsk is south of the direct line between here and Khabarovsk.

Ivan Roncharoff, chief of the Novosibirsk airport was talking to the Associated Press correspondent in Moscow when Post arrived, at the time when some concern was felt for his safety.

Almost simultaneously the chief heard that Post had passed over Tartarsk, 250 miles west of here. That was the first report of him since he left Moscow.

Post's average speed across the Atlantic to Berlin was about 150 miles an hour. From Moscow here his speed was about 138 miles.

At this rate, he declared confidently, "I'll be back in New York in less than three full days.

When he arrived in Moscow from Koenigsberg he was four hours, 24 minutes ahead of the previuos mark, set in the same plane. Although he was tired and worn from the pace he set for himself, he insisted on taking off after two hours and 52 minutes.

Driving him on was his self-imposed schedule because of which he said he was not proud of his time from Germany to Moscow.

"I hoped to be at Irkutsk by this time," he said, "but I still have got a chance to beat our record; and I am out to do it."

Soviet mechanics were interested in Posts automatic pilot, which most of them saw for the first time. They asked about it.

"That is a mechanical mike," he replied, through an interpreter. When they asked what a "mike" was, he explained.

The robot, he said, had been a disappointment and had caused such difficulties that he had had to steer the plane manually all the way.

He was weak with fatigue when he arrived in Moscow, but he refused to sleep, preferring to visit a barber and supervise the repairing of a leak in the gasoline feed.

NAMED ELKS RULER

MILWAUKEE, July 18.—(AP)—Walter F. Meier of Seattle, Wash., was elected grand exalted ruler of the Benevolent and Protective Order of Elks by unanimous vote of its national convention Tuesday.

England once refused the offer of all Spain's possessions in Africa in exchange for the Rock of Gibraltar.

LABOR CHIEFTAIN TO SEEK INQUIRY IN SHORTER WEEK

(Continued from First Page)

aired thoroughly before a code is granted any industry.

Meanwhile, the recovery administration put new force into the drive for more agreements by industries to raise wages and cut working hours immediately without waiting for government action on their "codes of fair competition."

Various groups on the verge of submitting these codes, the formal agreements for self-government of industry under federal supervision, were being pushed to act quickly.

There was evidence that Hugh S. Johnson, the administrator, and his aides were seeking preliminary wage-raising agreements in retail lines particularly, so as to get some of the immediate benefits of the recovery movement to store and office workers as well as factory employes.

GENERAL CODE LEFT WITH RECOVERY COUNCIL

WASHINGTON, July 18.—(AP)—President Roosevelt left with his "recovery council" Tuesday the preparation of any general code for higher wages and shorter work hours, as he was confined again to his room by a slight indisposition.

Arrangement was made for a second session of the administration's advisory group, composed of members of the cabinet and chief administrators of the various major recovery laws. They are divided on the necessity for immediate forceful action by the federal governmen to spur business and consumption.

Hugh S. Johnson, industrial administrator, apparently had ready fo a far-reaching proposal to brin about increases in wages and th shorter hours in labor immediately pending establishment of many of th new industrial codes to govern compensation and labor time.

Secretary Roper, chairman of th special cabinet board on industria recovery, said he thought the voluntary action of industry in lining u behind the presidential progran made a general "blanket code" unnecessary just now.

White House advisors were uncertain what course Mr. Roosevelt woul pursue. He is known to be hopeful that American industry woul voluntarily cooperate to the utmos but he is also said to be ready t act if he is convinced it is necessary

Attorney General Cummings, th ranking cabinet officer in the cit was appointed by the president t preside over the second meeting c the recovery council, called to me in the president's executive office.

Considerably improved, the pres dent himself remained in seclusio at the suggestion of his physicia to recover completely from a co which overtook him after his weekend cruise.

Marvin H. McIntyre, a secretary t the president, said he had no temperature and was suffering no pai but that he thought it best to remai again in his rooms.

Talking with reporters on the ad ministration situation, meanwhil Secretary Ickes—public works ad ministrator—denied there was ar "serious difference of opinion" b tween him and Lewis Douglas, director of the budget, or Johnson as industrial administrator.

Ickes and Douglas have been r ported as conflicting in their views c the extent the federal governme should pursue the $3,300,000,000 pu lic works program.

How She Lost 1 Pounds of Fat For 85 Cents

"I used one jar of Kruschen a reduced 14 lbs. and just feel fine. W bothered before with gas pains b after taking Kruschen they nev bothered me." Mrs. Frank Reed, De River, Minn.

Don't stay fat and unattractive—when it's so easy and safe to get rid double chins, ugly hip-fat and unbec ing plumpness on upper arms—at the sa time build up strength and increase tality—feel younger and keep free f headaches, indigestion, acidity, fatigue shortness of breath.

Just take a half teaspoonful of Kr chen Salts first thing every morning i glass of hot water. If not joyfully sa fied with results of one small jar (last weeks) money back from any drugs the world over. But make sure you Kruschen—the SAFE way to reduce. (Adv.)

It's utterly new!
Equalizer KOTEX
(Patent No. 1,863,333)
gives 20 to 30%
greater protection,
new comfort and safety

Illustrations and text copr. 1933, Kotex Co.

WOMEN! Here is an improvement in sanitary protection that gives you undreamed of extra comfort. Kotex—by adding a processed center section—gives you more complete protection, without a bit more bulk. Its downy filler is softer than ever. The "Phantom" ends are retained, making the pad non-detectable. An intimate explanation of the new Equalizer is given you on the direction sheet inside the package.

Here is the same absorbency, the same easy disposal. It can be worn on either side with equal protection. All drug, dry goods, and department stores have it.

FEDERAL AGENTS TO POLICE EAST TEXAS OIL AREA

Legal Experts of Interior Department Set Up Headquarters

TYLER, Texas, July 18.—(U.P.)—Interior department representatives Tuesday made preparations to police the east Texas oil field to prevent interstate shipments of oil produced in violation of state proration orders. Such shipments were banned by President Roosevelt in an executive order last week.

Prof. J. Howard Marshall of the Yale university school of law and Dr. Norman L. Meyers, acting special assistant solicitors for the interior department's investigator, made up an advance guard which arrived here Monday night. They were to be joined Tuesday by A. D. Ryan of Washington, who is to be the federal agent in charge of the government's activities in the field.

A corps of agents who will police the field was expected later.

Marshall and Meyers, who have done considerable research in legal problems incident to proration, began immediately to set up field headquarters from which the government will pursue its work.

EXECUTIVE ORDER SEEN AS WHOLESOME

KILGORE, Tex., July 18.—(U.P.)—Statistics presented by the Texas railroad commission Tuesday indicated the executive order banning interstate shipment of "hot" oil already had produced a wholesome effect in the east Texas oil field.

Week-end tank car shipments of crude declined sharply. Capt. E. N. Stanley of the commission's oil and gas division reported 23 tank cars crossed state lines Sunday while only nine were shipped Saturday.

Mid-week shipments, he said, amounted to as many as 851 cars in a single day.

Production from the field Sunday was estimated at around 580,000 barrels. Tuesday, however, the field was operating under a daily allowable of approximately 600,000 barrels as a result of an order to operators of several hundred wells stepping up their allowables.

Stanley said the maze of injunction against the commission's orders apparently had been cut away, giving the body a free hand in enforcement work.

ATTORNEYS ARE SENT AS THREAT ANSWER

WASHINGTON, July 18.—(AP)—Secretary Ickes said Tuesday two attorneys of the interior department had been sent into east Texas in answer to threats from oil producers seeking an injunction against federal regulations to prevent movement of illegally produced oil.

Asked if the department intended to concentrate its efforts in the east Texas field, Ickes said "the chief offenders seem to be in that pool."

He said so far as Washington was informed no suits had been filed to enjoin the government from enforcing its oil regulations, but that there were numerous threats and rumors of threats in oil circles that suits would be filed.

Preparations for attending the hearing Monday before Hugh S. Johnson, industrial administrator, on the oil industry code were begun Tuesday by the interior department which plans to have representatives present from the bureau of mines, geological survey, and solicitors office.

Ickes said he had been advised Governor Pinchot of Pennsylvania personally would represent that state at the hearing and that Cicero Murray would represent Governor Murray of Oklahoma. No word has been received from Governor Ferguson of Texas.

Dr. J. W. Williams Is Asking Questions

Dr. J. W. Williams, parish health unit director, has the following to say:

"Is anything wrong when parents let a 12-year-old boy die from malaria (which can be cured by the use of quinine) by refusing either to give the drug or allow a physician to be sent without cost to the child? Or, a mother knowing her child has whooping cough, who will premeditatively carry that child and place it in a crib with a neighbor's child who does not have the disease?

"Or is there anything wrong when a professional man resents efforts to control rabies because he is sure there is no such disease as hydrophobia?"

Landis and Young Are Low Bidders In Mass.

Landis and Young, of this city, was low bidder Tuesday on the construction of the new postoffice at Cambridge, Mass., with bids of $331,000 for a granite building and $302,000 for a granite and limestone structure.

This firm has for the past several years specialized in the construction of postoffice structures. The new Monroe postoffice is fast nearing completion, and the firm has erected several others of similar nature in the past three or four years time.

PICAYUNE ISSUES STATES TUESDAY

Afternoon Paper to Be Continued As Six-Day Daily Journal

NEW ORLEANS, July 18.—(AP)—The New Orleans States, afternoon daily founded in 1880, sold Monday by the estate of the late Col. Robert Ewing to the Times-Picayune Publishing company, Tuesday was issued from the offices of the Times-Picayune for the first time.

The States will be continued as a six-day afternoon paper published in conjunction with the morning Times-Picayune. The Sunday edition will be issued jointly under the name of the Times-Picayune.

J. Walker Ross, for many years editor of the States, headed a large number of States' executives and staff men transferred to the new offices of the consolidated papers.

Farmerville Town Officials Sworn In

MARION, July 18.—(Special)—The newly elected officials of the town of Farmerville have been sworn into office. J. R. Dawkins is the new mayor, succeeding J. W. Stancil, Jr., who was not a candidate for reelection. The town council is composed of Robert Albritton, A. C. Dykes, R. B. Dean, W. C. Tugwell and Guy F. Hicks. Mr. Hicks is the only member who has previously served. O. Baughman, was reelected as city clerk and O. E. Smith as marshal. The mayor appointed Robert Albritton and Guy Hicks as street commissioners and R. B. Dean and W. C. Tugwell as water commissioners.

'HANGING' SLATED ATOP NEWSPAPER BUILDING HERE

"Old Man Depression" to Meet His Fate On Thursday

The parade preceding the hanging of "Old Man Depression" from the top of the News-Star—World building, Thursday afternoon, will start at 5 o'clock from in front of the building, headed by Mayor Arnold Bernstein, with Sheriff Coverdale and his deputies in charge of the convict, handcuffed and ready for the execution.

The execution is scheduled to take place at the conclusion of the parade at about 6 o'clock. A motorcycle escort will be provided by Superintendent of Police L. V. Tarver, and Chief Frank J. Roddy is arranging to have the fire department represented.

Following the parade the cast will proceed to Neville auditorium where the musical comedy, "Hello Prosperity," will be presented at 8:15 p.m. This show has been arranged with a professional cast of principals and is full of sparkling comedy from opening to the finale. Some of the scenes have the brilliance and quality of any New York musical show.

As a grand finale to the hanging of "Old Man Depression" and the greeting of "Hello Prosperity," there will be a grand ball on the roof of the Frances hotel at which some local girl will be elected "Miss Prosperity" and crowned as queen by Mayor Bernstein. This is the end of depression and those in charge of the arrangements for the show and dance are expecting a very large attendance.

These events are being sponsored by the Junior Charity League and the funds they derive will be used in their regular charity work. Paul English will be featured in the cast of approximately 75 people.

RUBY KEELER

"Screen stars certainly know about complexion care"

says Miss Mary Carr of New Orleans

Millions of women like Miss Carr—charming screen stars like Ruby Keeler—are enthusiastic about Lux Toilet Soap. For years they've used it because it's such a wonderful aid in keeping complexions lovely.

Now scientists explain WHY. Lux Toilet Soap, they tell you, in addition to its complete freedom from harshness, and ready solubility, *contains precious elements* Nature puts in skin itself to keep it *youthful*.

No wonder 9 out of 10 lovely screen stars are devoted to this fragrant, white soap! Why don't *you* try it? Begin today!

PARISH WILL SEND MANY TO CAPITAL FOR FARM STUDY

L. S. U. Short Courses Will Be Conducted From Aug. 7-11

The L. S. U. extension short course for farm men and women will be held in Baton Rouge on August 7 to 11 inclusive, stated Mrs. Jewel McQuiller, home demonstration agent, Friday.

From one to five representatives are expected to go from each of the 14 women's 4-H clubs and a number of farmers will accompany the women on the trip, leaving here late on August 6, by motor.

Lectures at the state university, demonstrations, and studies that are suited to the farm home and to the conduct of the farm and raising of live stock and crops will be stressed, as usual.

Bulletins giving the courses of study and lectures have not as yet been received here but are expected at once, Mrs. McQuiller stated.

Last year, Ouachita parish sent 43 to the short course and this year the number may be even exceeded, according to the present outlook.

Boys and girls who are entered in state contests are also to attend the courses.

I learned about "Toasting" from my husband

I used to think that "Toasting" was just an advertising phrase. But one day my husband explained to me what "Toasting" is—and what it does. Where he learned it all, I don't know, but I began to understand the difference in cigarettes. Now I find myself enjoying Luckies' mildness and fine taste with a new respect. But even more—since I am a woman quite sensitive to personal daintiness—and since my cigarette and my lips are so intimately related, I especially appreciate the comforting purity of "Toasting". Naturally, with *me* it's *always* "Luckies Please!"

because "It's toasted"

The Devil's Own Crime

The series of kidnapings which have provided so many black headlines for the newspapers recently comes as a shocking and horrifying development; and the insolence and defiance of the underworld which produced them remind us that we have made no headway whatever in our avowed fight to check gangsterism.

Few crimes strike so directly at the security and safety which organized society seeks to provide for its members as does kidnaping. It is the meanest of crimes and the most dangerous. It can flourish only when society's means of protecting itself against lawlessness is on the very edge of collapse.

Kidnaping is in one respect the most formidable of all crimes. We know of no other where the interests of the community and the interests of innocent individuals so promptly and perilously clash. A crime in which the safety of the victim is made to appear dependent upon the strict compliance of his relatives with the orders of the criminals and upon the complete inaction of the police is one society must tax itself to the utmost to stamp out.

True, we did not need these long drawn out negotiations with the O'Connell kidnapers in New York or the Luer kidnaping in Illinois to remind us of this. We have seen it again and again. But we have in these two recent cases conspicuous instances of delay in reporting the kidnaping to the police. In both cases the kidnapers had three days to "dig themselves in" and prepare for the negotiations.

The devil devised a crime worthy of himself when he invented kidnaping. But no civilized nation can confess itself powerless to cope with it. Two things are urgent where the crime of kidnaping is rampant. Thus far Louisiana has been free of this terrible menace, but there is no telling how long this state may be immune. First, the public must be persuaded that prompt police work is in the long run the best hope for individuals as well as for the community. Second, the fight on rackets must be expanded and intensified until it makes any form of racketeering too dangerous and unprofitable.

These recent kidnapings ought to arouse the whole nation to tackle the entire problem of gangsterism with genuine vigor and determination. The job will be one of the hardest we have ever undertaken; but it will also be one of the most important.

Bootlegger Passes

Ours is a paternalistic government which, in theory at least, strives to help rather than injure its wards (everybody is a ward in this present scheme). But for all its conscientious striving the government often must hurt some while helping others.

Prohibition was undertaken to help the weak, to help certain types of business, to help the government, to help win the war. It enriched the bootlegger but impoverished the brewer and saloonkeeper. It made a certain type of professional reformer a power in politics to whom the old time politicians had to make themselves subordinate or retire.

Beer was brought back to help the weak, the government, certain kinds of business and to help beat the depression. It is helping the brewer and the legitimate retailers of beer, but it is putting the bootlegger and wildcat brewer and distiller out of business. The reformer who got his power from prohibition is in retirement and no doubt another sort of politician will come to take his place.

The restaurateur who bewails the lack of profit in beer under the system in vogue in most states, which does not permit concentration of all the business in a few cases, should give a thought to poor Al, the bootlegger. His market has fallen off to about the level of the market for million-dollar yachts.

Apparently the beer laws were written not to help a few sellers but to get the most for the government.

Deadbeat Nations

There is no longer any doubt about the intentions of the debtor nations to get their debts to the United States canceled by hook or crook. Britain's payment of less than a seventh of the amount due removed the last shadow of a doubt as to their ultimate aim.

They don't want to pay, they don't have the money and they know that Uncle Sam is in no position right now to take it out of their hides, so speak. In more opportune times, economically, France would not have dared default and Great Britain wouldn't have presumed to write her own settlement terms by sending over but a fraction of the sum due.

From the other debtors can now be expected, in view of the recent action of London and the action of France last December, nothing better than partial payments, with more defaults almost certain. The smaller debtors have been waiting for someone to try out the water.

The British chancellor of the exchequer makes it clear that the 10 millions in silver are not an installment on the $75,000,000 due, but part payment of an indeterminate obligation which his government desires determined at some future date and not by the terms of the 1923 agreement.

The American government and people understand the sorry financial straits in which Europe finds itself, but they will lose sympathy if such high-handed methods are persisted in. And Europe still needs an understanding and sympathetic America.

Another difference between a salary and an income is the greater difficulty in evading income taxes on the former.

The hum of the binder is beginning to be heard in the southwest, and it isn't 20-cent wheat that is being harvested.

Uncommon Sense

By John Blake

YOU CAN'T COAST TILL YOU CLIMB

A number of men I know have had fair ability, a certain amount of money and the cheerful outlook on life which is needful to any substantial progress.

The men among these who have failed, did so because as soon as they had gained a little ground, imagined that they had arrived and began to take it easy.

This was especially the case a few years ago, when for many people, it proved easy to make money in the stock market.

Not far from where I live are a great many handsome houses—was going to say homes, but they are not homes any more—which were bought or built by people who believed that easy times were going to last forever.

They now have learned their mistake. But I am sure that more than half of them would do the same thing over again if they got the chance.

* * *

As a child I lived in a midwestern state which had a very large Scandinavian population.

These people worked extremely hard, having come from a region where the hardest kind of work is necessary to earn a bare living.

When they began to get out of debt to the grocer and the farm machinery man, when their crops were plentiful and their live stock multiplied, they did not sit back and take it easy, as did some of their less far-sighted American neighbors.

They figured that bad years were sure to come, that there might be highly destructive wind storms, and seasons when swarms of grasshoppers ate every growing plant down to the hard bare ground.

But when old age came, those who had earned prosperity—and there were many of them—moved to the city, built big comfortable houses and sent their children to distant colleges.

Many of them even got into politics, as you will discover if you will look through the pages of the congressional record.

These hardy and industrious people have made and are still making good useful American citizens.

A little easy money did not lead them to think that all the years would be good years.

Their thrift, and their willingness to work as long as there was light by which to work rendered them a very desirable class of Americans.

* * *

Everybody has the right to play, if he had earned it.

If you have earned a competence, and know how to keep it, go out and see the world, live in a big house, run for congress, do anything you like.

But do your coasting after you have done your climbing.

And don't do that till you are sure you can haul your sled back up hill after your thrilling slide.

Walking back, either from a valley under a hill, or from a wildcat speculation is far from pleasant.

WHAT BETTER?

What better does life bring than this—
The smiles in eyes we love,
That make them shine far brighter than
A jeweled sky above?

What better does life bring than this—
The sound of words, joy-filled,
To know that something that we did
Encouraged, strengthened, thrilled?

What better thing than this—a hand's
Soft pressure joyously
In gratitude? Than these fair things,
Can better, fairer be?

HIDING IT

The Mistress—Here's a hole in my new table cloth.

The Maid—Yes'm, I've seen it. I'm goin' to turn the table cloth over so the hole will be on the under side.

A NOISY VOCATION

Howell—He says that business is very quiet.

Powell—I don't see how it can be when he is an auctioneer.

LOOT

Slippery Bill—Gee, somebody's stole me pocket book!

Bystander—What was in it?

Slippery Bill—I dunno! I hadn't opened it!

CORRECTING HIM

The Cynic—It's true that every man has his price.

The Senator—Don't include me, sir. I have named my price, but I haven't it as yet.

THE USEFUL KIND

Mrs. Fussbody—What is your idea of a good practical joke?

The Jokesmith—Oh, any one that will sell readily.

ANNOYING

Mr. Kindun—Was Mr. Speeder much disfigured in that last auto accident he was in?

Mrs. Speeder—Well, yes—it knocked back his features quite into their original shape again!

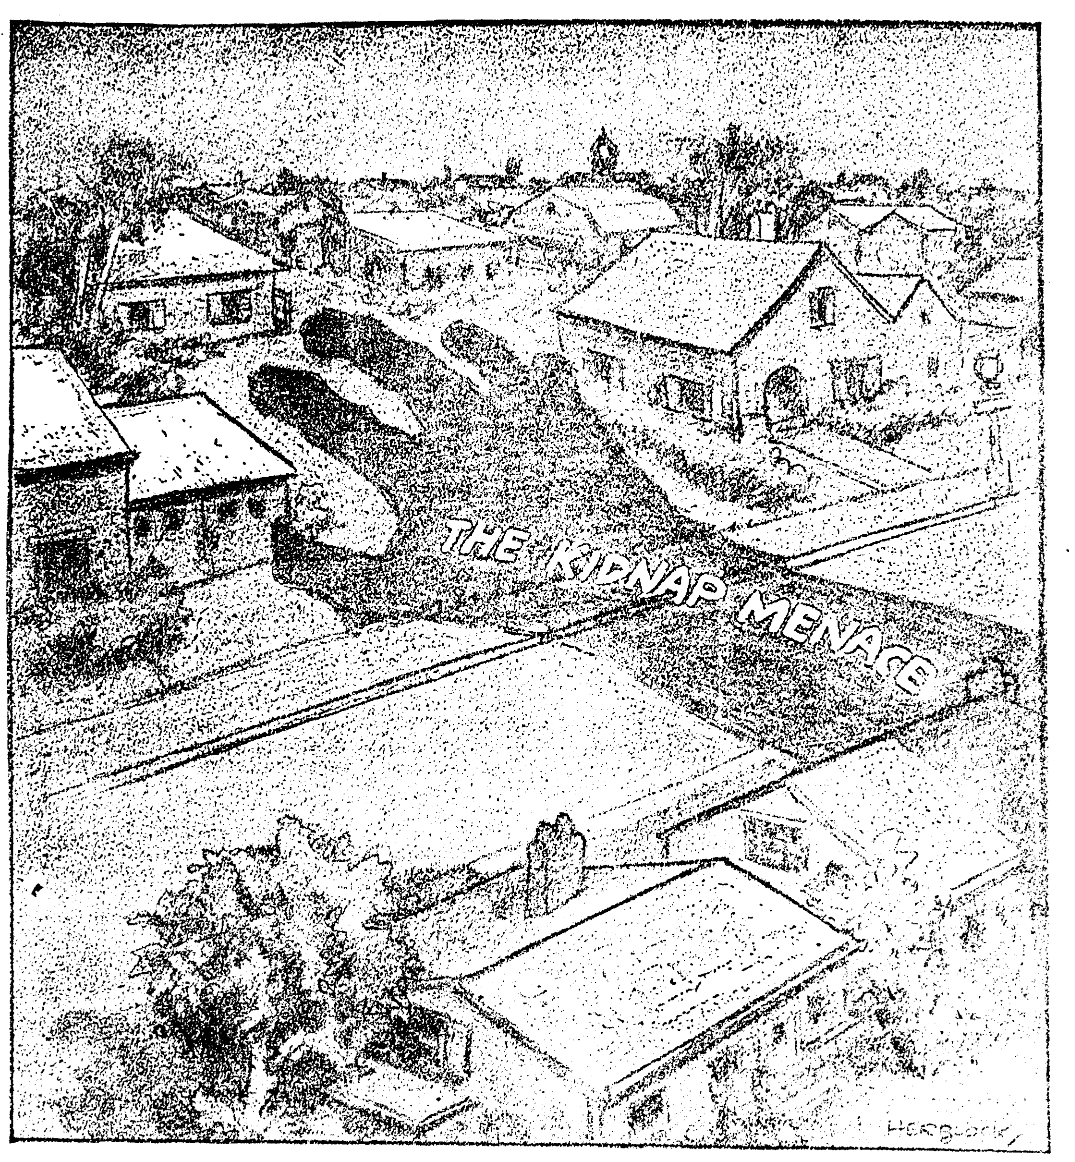
O'ver the Land of the Free and the Home of the Brave



They Call It Politics

By Carter Field

WASHINGTON.—Thirty-five million dollars, pumped into rural Wisconsin, where it will bail out the banks with frozen mortgages and reduce the interest rates on these liens, is to be the first move of the Home Owners' Loan corporation set up by the last congress.

Illinois, it is announced, is to be the second state. But the wheels are all greased in Wisconsin, the money has been made available from the St. Paul office and the appraisers have been working so diligently that the money is about to move.

Money in the closed banks! That is one of the chief objectives of the bill Assistant to the Secretary of the Treasurer William J. Cummings, in charge of closed banks, is just purring over the effect!

That, added to the rise in commodity prices, and stock prices, not to mention low grade bond prices, has simply turned the closed bank situation from very indeed sad to very promising.

On July 8, for example, there were still 976 national banks unlicensed, with deposits, taking the December 31 last call, of $1,090,088,010. Mr. Cummings points proudly to the fact that 4,920 national banks are open and unrestricted, with deposits of $16,834,638,000—a ratio, he points out, of more than 16 to 1.

But national banks are only part of the picture.

Non-national banks which belong to the reserve system, to the number of 117, are still closed, with deposits, as of the same December 31 date, of $312,000,000. Banks of this same category, which are open, total 704, and have deposits of $9,663,000,000.

And then we come to the non-member banks. There it is not so good. Of these 2,016 are still closed, and their deposits amount to $1,072,883,000.

Non-member banks which are open number 8,168 and have deposits of $5,071,774,000.

This still leaves out the mutual savings banks, which number 578 and have deposits of $9,801,005,000.

These are concentrated mostly in the northeast. New York state has some five billion of these mutual savings bank deposits. New England has three billion more. Most of the rest is in a few large banks in Philadelphia and Baltimore. Incidentally most of the restrictions have been removed from these deposits.

As a result of the expected effects of the federal treasury's turning its millions into mortgages, the number of non-national banks both reserve members and not, which will be able to re-open very speedily is thought to be very large.

Mr. Cummings has approved plans for reopening a very considerable fraction of the banks still closed on the July 8 figures, and contends for that reason the figures are deceptive.

However, the necessity of more actual currency has been one of the things delaying the procession. With federal money in their vaults in place of the frozen mortgages, the situation may be very different.

Incidentally both President Roosevelt and Mr. Cummings think they have done a very good job on behalf of the depositors in these closed banks. They resisted flatly many plans for reopening, which might have resulted in heavier losses to the depositors. For example, Mr. Cummings was much criticized by Governor Comstock, of Michigan, and a strong group of senators, for not accepting the so-called "Michigan plan." One feature of this was to issue to depositors script which might circulate locally as money for part of their deposits represented by a "slow but sure" classification. Mr. Cummings felt this scheme would result in heavy losses to depositors, who would be tempted to sell this script for much less than its face value.

Incidentally he fears he made himself rather unpopular with some bank stockholders, whose double liability might have shrunk under this plan.

MRS. HUTTON WILL CONTEST DIVORCE

Evangelist Doesn't Want Husband But Desires Own Decree

PARIS, July 18.—(U.P.)—Aimee McPherson Hutton, four-square gospel evangelist, is on her way back to California to fight the divorce suit of her husband, David Hutton—not that she wants Hutton, but that she wants the divorce in her own name, the United Press learned Tuesday.

Mrs. McPherson Hutton, who slipped away from the American hospital after an abdominal operation recently, visited her daughter in the Paris suburbs, dodged those who sought to trail her and sailed from Havre Sunday on the Baltimore mail liner City of Havre.

The ship is due at Baltimore July 25, a week from Tuesday.

It was a warning sent to her from her Angelus temple flock at Los Angeles that sent Mrs. McPherson Hutton back home. They cabled her that the burly singer was preparing to file suit for divorce, and the evangelist decided at once to go home, contest it, and obtain the divorce herself.

DAVID L. HUTTON COINS OWN PHRASE

LOS ANGELES, July 18.—(AP)—David L. Hutton, who has filed suit for divorce from Aimee Semple McPherson, coined his own phrase to describe his relationship to the evangelist.

"Pet poodle," he exclaimed, "I was just Aimee's pet poodle! I had plenty of affection—yes,—but no privileges."

And further: "I object to being 'Mr. Aimee Semple McPherson.' I felt all the time as though I were living in some unreal, hectic realm—I was only a puppet waiting for someone to pull the strings."

In a direct message to the examiner from the liner City of Havre, far out in the Atlantic en route to America from France, Mrs. Hutton Tuesday said "reports concerning divorce are preposterous."

To Hutton the evangelist sent this cable:

"Sweetheart: Reassure me your confidence." It was signed, "Wife."

Hutton did not reply.

"She may be wirelessing in an entirely different vein Wednesday," he said. "Guess I'll wait and see how she feels about it all in another day."

GIVEN 4-YEAR TERM

VERNON, Tex., July 18.—(AP)—A four-year prison sentence has been given Dallas Paschall, 28, of Dallas, by a jury which convicted him of participation in the attempted burglary of the First State Bank at Oklaunion last April 10.

HAMBONE'S MEDITATIONS

By J. P. Alley

SOME FOLKS DON' NEVUH SEE GAWD TWELL DEY GITS IN DE DAHK!!
7-18

(Copyright, 1933, by The Bell Syndicate, Inc.)

15 Years Ago

On July 15, at Pineville, La., Miss Bendette Ray, a most popular young lady of Monroe, La., was united in marriage to Sergt. Joe Trammell of the 156th Ambulance company stationed at Camp Beauregard. They were married by the Rev. Fulton of the First Methodist church. The event was quite a surprise to relatives as well as friends since the happy couple took no one into their confidence.

Monthly luncheons will be a part of the Chamber of Commerce program in future. The feature was suggested yesterday by R. Downes, Jr., president. It was also decided that the board meet twice monthly—once at 4 p. m. on the first Wednesday of each month—and again on the third Wednesday.

Reporting for the membership committee, Secretary G. T Cross said $6,000 already has been signed in pledges and that $7,000 more is in sight.

Miss Syd Reed, of St. Louis, is visiting her sister, Mrs. L. F. Petagna, of South Fourth street.

Several Hundred Are Hired For Levee Work

FERRIDAY, July 18.—(Special)—Several hundred workers are being given employment by the levee construction companies which have recently resumed work in this area. Among the companies working in and near Concordia parish on levee building projects are the Callihan Construction company, Trinity Farm company and several others.

Work started recently on the Lake St. John levee. The Callihan Construction company has the contract for this work. The other companies are working in Tensas and Concordia parishes. The Valley Construction company has several hundred men engaged in levee work below Vidalia, near Deer park.

Most of the work started several months ago, and was discontinued because of the high stage of the Mississippi river. Now the river is falling fast and all work has been resumed by the contractors. The work is expected to continue for several months and will mean employment for several hundred men and will aid local business men.

Ice Cream Makers Will Draw Up Code

RUSTON, July 18.—(Special)—Thomas P. Hogan, secretary of the Association of Ice Cream Manufacturers of Louisiana, authorized the announcement here Monday that representatives of the manufacturers would meet at the Bentley hotel, Alexandria, Thursday morning at 10 o'clock, to draw up a code of fair competition for the guidance of the industry as provided for by the national industrial recovery act. According to Mr. Hogan, there are about 1,000 employes of the business in the several plants throughout the state. Benjamin C. Brown of New Orleans, acting president of the state association, will serve as chairman of the Alexandria meeting Thursday.

The ice cream industry of the state uses approximately 5,250,000 gallons of sweet milk, and 2,250,000 pounds of sugar yearly. Practically all the sugar is made from Louisiana cane.

Federal Bank Agent Opens Headquarters

FERRIDAY, July 18.—(Special)—German Baker of St. Joseph, local correspondent of the Federal Land bank of New Orleans, for Tensas and Concordia parishes, has established headquarters in St. Joseph and is now prepared to receive applications for direct loans from the bank as well as to handle loans by the farm loan commissioner.

New presidents do not provide their own china when entering the White House; the government supplies it.

IN NEW YORK

By JULIA BLANSHARD

NEW YORK—Headlines on the Douglas Fairbanks-Mary Pickford divorce brings back vivid memories of war days of 1917-18, when they, with Charlie Chaplin, were selling Liberty bonds in New York . . . It was on this tour that the romance started . . . Both then were married to other mates.

Mary Pickford sold one of her famous gold curls, then the symbol of all the sweetness and light that he-men wanted in their women, to the highest purchaser of bonds. She stood on the landing of the little stairway leading up from the back of Lord and Taylor's and the store was so packed that doors had to be locked to keep the rest of the crowd outside . . . Afterward she joined Fairbanks, who did his bit by turning back somersaults, walking on his hands and going through a lightning series of fanastic gymnastics, and Chaplin, who made a speech, on a platform in front of the library on Fifth avenue . . . Crowds filled the avenue and 48th street, entirely blocking traffic, and that trio got more applause than the soldiers who paraded the preceding day.

* * *

Chaplin Turns the Tables

Next day, the three again appeared, this time on a platform built up in front of the treasury building in Wall Street . . . Fairbanks did his stuff and Miss Pickford came forward to smile and wave and urge everyone to "Buy Bonds." . . . Her little-girl voice carried no farther than the front row but just seeing "America's Sweetheart" in person was enough in those long-ago days.

However, when Chaplin's turn came, there were cries of derision . . . Nobody recognized the dapper young man, in an immaculate gray suit, soft felt hat, English shoes and no mustache . . . "That isn't Chaplin" was heard on all sides . . . Charlie heard it, too, and stood still a second . . . Then he leaned over and asked somebody for a derby and somebody else for a cane. . . . Then he hurried back, dragged forward one of the tables that they had been using for bonds, borrowed a couple of chairs right out from under officials recording bond sales, and placed one chair by either end of the table . . . Then he straightened up, faced the crowd, put the derby on his head, just so; turned his well-shod feet out, in the Chaplin manner; twirled his cane a time or two; walked over to the table in his inimitable manner, walked right up over one chair, across the table, down the other table and faced the crowd again . . . Before he even reached the table they had begun cheering him . . . When he faced them again, they almost split their throats.

* * *

A Film Star Turns Cook

The former Carol Dempster, lovely film actress, now Mrs. Edwin S. Larsen, has gone in for cooking in a big way . . . She has one of the biggest private collections of cook books in America and thinks nothing of concocting a dinner from Bagdad, Tahiti, Shanghai, Greenland, Ireland, Budapest, South Africa or any other spot you can name . . . However quite often she has trouble with her grocer, one Kaboolian. . . What Kaboolian hasn't in stock, he always will get.

Her first trouble came when she ordered a pig's bladder over the phone . . . But she was firm and Kaboolian got one for her.

The other day she phoned for frog's legs . . . "We don't ever have anything like that, Mrs. Larsen," he said, in an injured tone. . . Again she was firm . . . But so was he! Finally he called the butcher over to the phone and she repeated her request to him . . . "But what do you want with them?" he asked her, reprovingly. Then pride in their shop got the better of him. . . . "Mrs. Larsen," he said, sternly . . . "We don't handle dog's legs and I have never seen a butcher shop in my life that did. And what's more, Mrs. Larsen, we never will handle them!"

She had to go around in person to pacify them!

Hollywood Close-Ups

By DAN THOMAS, NEA Staff Writer

HOLLYWOOD.—Quips from filmland:

Jacqueline Francell, Maurice Chevalier's new leading lady, always carries a rag dog around with her and has for 16 years.

Loretta Young sculps in soap.

Carmel Myers is gaining quite a reputation as an amateur photographer.

Mae West has made a hobby of collecting pictures, biographies and memoirs of notorious women.

Spencer Tracy, although one of the best horsemen in Hollywood, seldom is called upon to ride a horse on the screen.

Philip Faversham, son of the famous William, will be seen with Ruth Chatterton in her next picture, "Female."

* * *

William Powell, leading screen detective, dislikes any kind of detective stories.

Charles Mack, of Moran and Mack fame, carries a small piece of twisted copper wire as a good luck charm.

James Bush is the great-grandson of the late Senator Dickey of Ohio who was the first governor-general of the Philippines.

During 22 years on the legitimate stage May Robson never left Broadway and never had a contract.

Dolores Del Rio's favorite dish is home-made bread.

Helen Hayes is an accomplished pianist and violinist.

Wallace Beery once flew down from his mountain cabin with the wings of his plane covered with ice.

Charles Reisner spends his spare time breeding fancy pigeons.

Among Richard Arlen's collections of 52 pipes is one valued at $250. It was given to him by a Czecho-Slovakian fan.

Jacqueline Wells has the smallest hands of any Hollywood actress.

A CALL FOR VOLUNTEERS

By KATHLEEN NORRIS

PEACE hath her victories as well as war, says the old phrase.

But the victories of peace are somehow rather dull. And the victories of war — when there were victories in the old days, were glorious. Flags flying, bands playing, millions taken in loot from the vanquished and the starving, orchards cut down, homes burned, and women bombarded the returning victors with roses, garlands, banners and feasts.

Nowadays no country is victor, except the non-combatants. Switzerland, Holland, Spain, are all better off, economically, than are the triumphant allies of the Great War.

But this article isn't about war. Or if it is, it is about one of those bloodless wars that women so often have to fight; a war against world fear. No banners, no bands, no uniforms, no parades, but how the ranks do need volunteers, right in your town and mine!

It's almost a pity we can't dress for it; parade for it. Perhaps we can. Perhaps in some town the women will set us all an example by doing that, as the men did in war time, and as we all did in our white Red Cross uniforms, with the touch of scarlet on our headbands.

Do you remember how stunning all women looked in that costume? Homely women, fat women, thin women, women of all ages and sizes, somehow the belted white apron, the white shoes, the plain white headband with its symbol of mercy and service and love, dignified them all. And how it lifted our hearts to walk steadily along, through familiar streets in the sunshine, saying to the world, "We are together. We are warring against pain and stupidity and heartbreak, while all the world is turned into a madhouse to create them!"

Today we ought all to enlist in a different cause. It is still the cause of mercy and service and love, but instead of mitigating the wounds of war we must bind up those of peace. In war we forget the future, we fling our all into the scale, we make sacrifices, we laugh at difficulties, we are not afraid.

Why not do that in peace? Why not declare that for the next year we will not hoard, we will not be afraid, we will help on all sides blindly, eagerly, as we did in war.

In wartime I helped in two canteens. We served our soldiers good hot meals; chicken on Sundays, good coffee, good bread, good homemade pie on all days. They were going across the seas, perhaps to be killed; we were eager to feed them, and they to be fed, because we knew that their magnificent young lives might soon be sacrificed, and that then our lives would be forever darkened.

Where are the canteens of peace? Why aren't we realizing that these times are times of emergency—no common rules apply to them? Hoarding money won't help anyone now, for no one knows what money will be worth, in another year. Worrying won't do any good, because nobody knows quite what's going to happen.

But spending what money you have confidently, happily; serving your family good meals; stretching out a hand to the nearest case of need that you know; these things are not only the way to happiness but the way OUT. This is like a war in that we must let go some of our hoarded prejudices and terrors, say loudly and healthily, "Why, God is still over us all, and America is rich; everyone wants to help; the best brains of the country are heroically and daringly at work solving the greater problems. So now for our little ones, here in this town."

We can't have uniforms, perhaps, for uniforms on women are too apt to say, "Charity," and this isn't a question of charity. It is a matter of sharing, which is quite a different thing. If every family that could afford it asked one or two members of some other family to share meals; if everyone with a spare room put some hungry, lonely boy or girl into it, if everyone with a job to give looked about for a person to whom to give it, we would not only end the depression, but some of us would immensely enrich and widen our own lives.

That is the spirit American women have always been eager to show in war times; it is the spirit that brings us out of our flood and earthquake panics so quickly.

KATHLEEN NORRIS

If every family asked one or two to share meals; if everyone with a spare room put some hungry, lonely boy or girl in it we would end the depression, and enrich our lives.

It is only because of those blind, rich years through which we lived so recently, the mad years between 1918 and 1928, that we feel that we must have a million in the bank to be safe from beggary. We never used to feel so. We worked, ate, slept, enjoyed life, without these new anxieties about a future and conditions that we cannot possibly foresee.

Right here on my desk lies a new book; the story of Elizabeth Le Breton Gunn, one of California's wonderful pioneers. It is edited by her daughter, who was my mother's school friend. Elizabeth left Philadelphia on the sailing vessel Bengal, in 1851. With four small children she courageously set forth for California, by way of the Horn, meeting every danger of wreck, famine, fire, illness, mutiny, by the way. She had almost no money, and she had not seen her husband for months. He might be dead, for all she knew. The Bengal, whose ultimate destination was China, stopped only once, at Valparaiso, before making port in San Francisco harbor, in August. Her husband was "somewhere in the mines," in California. Even when she reached him, after this unspeakable trip, when for six months she and the children were blown back and forth at the Horn, Elizabeth only found herself in a world of poverty and difficulties. Twice his business was burned out; his investments failed him; his ventures were unsuccessful. Her gloriously courageous journal records it all; she raised her sons and daughters in the new raw world, without the colleges, homes, culture, books, without the background she and her husband had had. But she raised them, nice, without fear, for she didn't know what fear was. If Elizabeth wanted flour she had to pay a hundred dollars a barrel for it. She paid it. They might have no more money, but if there was food for two days in sight, and the children were well, that was enough for her. Gallantly she fought on; making mince meat with cider and currants and lime juice, making the girls pantalettes, eagerly asking fashion advice from Philadelphia. And she lived to splendid old age, with her prosperous brood about her.

We need women like her today. There were years when we felt we had to save, and could easily save, not that it did some of us much good. But these are not years to save; saving will only stifle us now. Now we must spend, generously, courageously, to get America out of the swamp, just as we would fling all our fortunes in with hers if we were to enter another great war. The generous people of the South risked their last dollar for the cause, sixty-eight years ago—they emerged ruined, homeless, but with the tradition of their deathless valor forever intact, and with the vision to go on. The narrow, nervous, frightened people of the South who hoarded their money on the other hand, found it useless when the crisis was over, and its chance of helping forever lost. Money, in itself, isn't any use. Vision and daring and adventure have built the world.

In other words, this crisis of ours isn't entirely, or indeed largely, a question of money. It is a question of what characters will collapse in discouragement and despair, and what characters will emerge not injured, not vanquished, but actually helped and established through these changing times and altering standards. The heart that can see through today's mists to tomorrow's certainty of good times, employment, higher wages, better adjustments nationally and economically, is rich in something, better than money.

And meanwhile, organize to solve the immediate need. This isn't a question of charity. But as in war times, after floods and earthquakes, and in pioneer days, it is rather a realization that we are all in this together, and that we can't get out until everyone's hand is holding tightly to his neighbors' hands.

Kathleen Norris Says:

Money, in itself, isn't any use. Vision and daring and adventure have built the world.

• • •

Spending what money you have confidently, happily; serving your family good meals; stretching out a hand to the nearest case of need that you know; these things are not only the way to happiness but the way out.

• • •

The unsettled condition of our country today is like a war in that we must let go some of our hoarded prejudices and terrors, say loudly and healthily, "Why, God is still over us all, and America is rich; everyone wants to help; the best brains of the country are heroically and daringly at work solving the greater problems. So now for our little ones, here in our own town."

(Copyright 1933, by The Bell Syndicate, Inc.)

WORD IS AWAITED FOR PLOUGHING UP BIG COTTON TRACT

Expect Desired Information Will Be Received In Few Days

That the entire parish has been carefully canvassed in the federal administration's cotton reduction campaign, with the assurance of E. R. Strahan, parish farm agent, Tuesday. He stated that the results have been such as to be satisfactory to all concerned.

A total of 1,011 completed contracts have been sent on to Washington which call for a total of 8,687 acres to be retired from cotton production.

Money to be paid outright for same will exceed a total of $100,000. Besides this there are options on a total of 2,132 bales which, if the market price is sustained, ought to yield more than $50,000 additional or a total of approximately $150,000.

Mr. Strahan stated that the farmers have cooperated well throughout the parish. When approval of the contracts is had in Washington, same will be returned here in bulk and it is expected that the order will come late this week or the first of next to plow up the designated acreages of the growing cotton crop.

TODAY'S AMUSEMENTS

AT THE PARAMOUNT—Gracie Allen's sense of humor has made her real brother a virtual hermit.

She admitted that with a straight face during the filming of "College Humor," Paramount's musical-comedy version of college life, in which she and her partner, George Burns, are featured with Bing Crosby, Richard Arlen, Mary Carlisle, Jack Oakie, Coach Howard Jones, Lona Andre, Mary Kornman and the Ox Road Co-eds. The film is to be shown at the Paramount theater on Friday, Saturday and Sunday.

It all started a few months ago when Gracie announced over the radio that her "brother"—the same guy who teaches her all those dumb tricks—had been kidnapped. This gave Burns and herself the opportunity to appear on every program on the Columbia network—as well as a few on the NBC hookup—to search for him.

But this brother and the kidnaping, of course, were gags. But a good many listeners, it developed, had curious senses of humor. Letters and wires poured in on Gracie from people who wanted to help find him. Others stopped her on the street, in cafes and in theaters.

Meanwhile, her real brother, George Allen, a quiet, unassuming fellow, was working in the Standard Oil company offices in San Francisco. At least, he worked until it was discovered that Gracie was his sister.

"I really feel sorry for George," says Gracie. "It really is a shame, the things that have happened to him since we started that gag. The poor boy is kidded to death in his office. He has been forced to move and has to keep his address a secret. He had his phone taken out. Newspapermen are continually on his trail, and George hates publicity.

"George isn't silly, like I am. He's a hard-working, respectable young man. Sometimes I feel ashamed of myself for causing so much trouble, but I really thought it was funny."

AT THE CAPITOL—The unusual setting of a complete wax museum with images of famous characters of history and notorious criminals, forms the motivating background for the Warner Bros. mystery thriller, "The Mystery of the Wax Museum," which opens at the Capitol theater today for a two days' engagement.

The museum is an irregular triangle in shape, 120 feet long, 80 feet wide and 25 feet high. It is filled with 104 wax figures in sixteen groups including figures of Marie Antoinette, at the guillotine, the assassination of Marat by Charlotte Corday, Joan of Arc, Voltaire, Cromwell, Richard III and many others.

The figures were all made to order by L. E. Otis and his assistant, H. Clay Campbell, of a Los Angeles wax figure plant. The figures were in part made from casts of players in the picture, chosen to resemble the wax figure they represented. Others were made from photographs or busts of marble or bronze. Six weeks were consumed in building the museum and making the figures, which also had to be authentically costumed.

Weird lighting effects thrown over the wax works are said to greatly increase the creepiness of the scenes which take place in the museum. The effect is heightened by the technicolor photography, which is used throughout.

Lionel Atwill, Fay Wray, Glenda Farrell, Frank McHugh, Edwin Maxwell, Gavin Gordon and Allen Vincent head an all star cast. The picture is taken from the play by Charles S. Belden.

Texas Wool Crop Brings Twice Expected Prices

SAN ANGELO, Tex., July 18.—(AP)—Texas ranchmen wil receive more than $15,000,000—twice the total expected when the season opened—from the spring wool and mohair crops, a compilation here revealed.

About 35,000,000 pounds of wool have been sold in Texas at prices ranging from 12 to 28 1-2 cents a pound, the bulk bringing 20 to 26 cents. The 5,000,000 pounds remaining unsold is expected to bring 25 to 27 cents, or even more.

TO ALL
CORPORATIONS
Domestic or Foreign
OPERATING IN THE STATE OF LOUISIANA

The Corporation Franchise Tax levied by Act 8 of the Legislature of 1932 becomes due and payable on or before September 1, 1933.

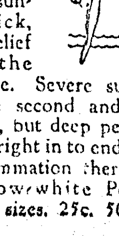
Every corporation, regardless of its size or condition, chartered or authorized to do business in the State of Louisiana must report and pay a tax, under this law.

The law makes no provision for an extension of the time of filing reports and paying this tax, and imposes penalties for failure to file report or pay the tax.

The necessary blanks and instructions can be secured from the undersigned.

Your cooperation with this office by filing your report and paying the tax due thereunder, as soon as possible, will be sincerely appreciated.

E. A. CONWAY,
Secretary of State,
Baton Rouge, Louisiana.



DON'T DIVE
Into a Dangerous
Case of
SUNBURN

Swim, of course, but be careful of sunburn. Get quick, cool, soothing relief with Penetro, the mutton suet salve. Severe sunburn often affects the second and third layers of the skin, but deep penetrating Penetro goes right in to end feverishness and inflammation there. Ask for stainless, snow-white Penetro, three economical sizes, 25c, 50c, $1.

SPECIAL LEVIES ADD TO TAX LOAD

(Continued from First Page)

the special tax total. The state gets all of the shrimp and oyster tax, but only two-thirds of the sulphur tax. One-third of the latter goes to the parishes. The sum of $23,873 was collected for June, 1933.

Of the estimated special tax total of $1,870,000 per year, the state administration will have less than $2,500,000 to play with, if the written law is adhered to. About $2,440,000 is specifically dedicated. This is inclusive of the insurance premium tax, imposed for the state university; the dairy products tax, imposed for tick eradication; the kerosene tax, imposed for the state health board; the gasoline inspection tax, retained in its entirety by the supervisor of public accounts for inspection and supervision purposes, and $1,500,000 of the tobacco tax total, set aside for public schools.

Tobacco and soft drink taxes became collectible on September 1, 1932. The collections by months, up to June 1, 1933, follow:

Tobacco Tax

Month	Amount
September, 1932	$441,915.76
October, 1932	180,772.19
November, 1932	191,665.99
December, 1932	188,851.48
January, 1933	232,328.79
February, 1933	181,653.28
March, 1933	176,185.39
April, 1933	198,599.90
May, 1933	210,071.29
Total for 9 months	$2,072,044.07

Of this sum, $142,621.20 was frozen during the bank holiday. It has since been partly released.

Soft Drink Tax

Month	Amount
September, 1932	$37,260.41
October, 1932	9,878.88
November, 1932	4,952.72
December, 1932	7,328.31
January, 1933	8,053.74
February, 1933	14,234.57
March, 1933	10,424.72
April, 1933	5,668.60
May, 1933	8,126.81
Total for 9 months	$105,928.76

Of this amount, $1,651.30, frozen in banks in February, has since been released in part.

All of the figures given above are net. The cost of collection was retained by the supervisor of public accounts and is not included in the total.

Collection of taxes on insurance premiums, were as follows:

March 30, 1933	$255,000.00
April 20, 1933	304,861.20
May 23, 1933	35,410.51
Total	$595,271.71

Collections for individual months were not specified in these remittances. Of the total sum, $229,861.20 was frozen during the bank holiday and has been since released in part.

The new kerosene tax for the support of the state board of health, to be used largely in tubercular sanitorium and parish health work, became due on August 1, 1932. The collections by months follow:

Month	Amount
August, 1932	$ 2,643.67
September, 1932	13,802.11
October, 1932	12,815.34
November, 1932	18,388.56
December, 1932	19,215.06
January, 1933	21,797.10
February, 1933	18,081.42
March, 1933	14,867.76
April, 1933	[illegible]
May, 1933	14,232.96
Total for 10 months	$150,956.72

By quarters, the tax on dairy products shows the following totals:

September 30, 1932	$22,000.00
December 31, 1932	27,529.64
March 31, 1933	23,700.00
Total	$73,029.64

In addition to all of these special tax levies, imposed in 1932, is the beer tax, collected under authority of an act of the special session of 1933. These collections are estimated at $750,000 per year, bringing the total well beyond $5,000,000.

Tax statistics are interesting only in proportion to their relation to the public mind. Just at this particular time when there is an aroused public interest in every part of Louisiana on the subject of tax burdens, the reports of special tax collections are of particular moment. Many of the special taxes imposed in 1932 are known as nuisance taxes. This is particularly true of the tobacco and soft drink levies. Theoretically, the tax on smoking materials was levied for the benefit of the public schools; actually, the schools get but three-fifths of the amount collected and two-fifths are used for general purposes of government.

On the basis of last year's property tax returns and estimates of the annual totals of special tax collections, Louisiana's state tax bill is now over thirteen and a half million dollars. Local tax collections for 1932 were $38,116,780.66. The people of Louisiana pay in taxes, therefore, more than 52 million dollars per year.

Technical Date Faces Sugar Drafting Group

WASHINGTON, July 18.—(AP)—A mass of technical data confronted the sugar conference drafting sub-committee Tuesday, but representatives of continental and insular industries hoped to speed completion of an agreement.

Under the chairmanship of Dr. John Lee Coulter, tariff commission member, the sub-committee for three weeks has been seeking the basis of an agreement acceptable to growers and refiners serving the United States market by which production may be balanced against consumption and higher prices sustained.

At Tuesday's meeting the group considered data prepared by processors' representatives who objected to certain provisions of the tentative agreement drafted last week.

Representatives of the Cuban sugar industry headed by Dr. Eugenio Molinet, secretary of agriculture, presented objections to the proposed agreement to limit Cuba's annual exports to the United States to 1,700,000 short tons.

DEMPSEY WEDDING IS TALK OF RENO

Reports Have It That Mauler Will Marry Actress There

ELKO, Nev., July 18.—(AP)—Jack Dempsey, former heavyweight boxing champion, and Miss Hannah Williams, Broadway musical comedy star, were married here at 9:30 a.m. Tuesday.

RENO, Nev., July 18.—(AP)—Jack Dempsey's wedding, if and when he arrives with his intended bride for the announced ceremony, was the "talk of the town" here Tuesday.

The talk started Monday night after the former heavyweight champion announced in Salt Lake City he was on his way to Reno again, this time with Hannah Williams, the actress, and that the ceremony probably will be Tuesday night.

Dempsey became officially a resident of Reno—his adopted home town—in 1931 when he came here to obtain a divorce from another actress, Estelle Taylor, of the films.

Friends said they had no direct information concerning his plans and their speculations were based on the announcement from Salt Lake and reports from other points.

At Oakland, Calif., Max Baer, whose recent fight with Max Schmeling in New York was promoted by the former champion, said the Dempseys and Baers will make a honeymoon foursome at a Roseville, Calif., ranch. Baer had just announced his home coming reconciliation with his wife, the former Dorothy Dubar, one time actress.

Ancil Hoffman, Baer's manager, who owns the Roseville ranch, said Mr. and Mrs. Dempsey are expected as his guests Wednesday.

Dempsey and Miss Williams have been visiting the former's mother Mrs. Cecelia Dempsey, in Salt Lake City for several days. They planned to make the trip to Reno by automobile.

'DULCY' WILL BE PRESENTED HERE

Clever Satire to Be Given By Monroe Little Theater Group

A change of plans in the production of the next play by the Monroe Little Theater group was announced Tuesday morning by Emma Alexander, the director. The play to be given will be "Dulcy," a clever satire of contemporaneous life, by Marc Connelly and George Kaufman. Originally it had been intended to produce "The Torchbearers," Mrs. Alexander explained, but owing to the heavy royalties demanded by the authors of the play, it was not found feasible to put the production on here.

"However," said the director, "I think the Monroe Little Theater is particularly fortunate in being able to obtain 'Dulcy,' which is a comedy of three acts and is delightful entertainment for these hot summer nights. It was produced originally in the Frazee theater in New York, and gave to the Gothamites so much enjoyment they went quite wild over it."

"Dulcy" is the story of a bride, who gives a week-end party for friends of her husband at their home not far from New York. It is an ill-assorted group, such as only a Dulcinea would summon about her. The complications that ensue make one of the most hilarious comedies that has ever been produced on an American stage.

Selection of the cast for the production is now being made by Mrs. Alexander. Date for the production, which will probably be early in August, will be announced later.

Attack On California's Repeal Ballot Carried To Highest State Court

LOS ANGELES, July 18.—(AP)—The attack of Richard M. Cannon, son of Bishop James Cannon of the Methodist Episcopal Church, South, and the Rev. F. G. H. Stevens, as taxpayers, on the validity of the June 27 election in which California electors voted for repeal of the 18th amendment, was carried to the state supreme court Tuesday by their attorneys, E. Neal Ames and Richard K. Gandy.

The lawyers appealed for a recent ruling of Superior Judge Emmett H. Wilson refusing to interfere with official canvassing and certification of the election vote.

ITALIAN AIRMEN PLAN TO LEAVE

(Continued from First Page)

luncheon with President Roosevelt, a banquet, and a reception.

A statement was issued from Balbo's hotel headquarters Tuesday praising efficiency of the seaplanes on the 6,100-mile flight to Chicago from Orbetello, Italy, over the Arctic route.

So perfectly did the motors of the planes function, the statement said, that they "did not miss a single explosion throughout the flight." The statement said there was no trouble caused by fuel, except that some dirt was collected accidentally in a few gasoline barrels in Italy.

The famous fliers rode through the city in automobiles Tuesday in a parade. A luncheon and a dinner and formal ball Tuesday night also were on the program.

NEWS OF INTEREST TO WOMEN

Items of news and announcements for this column should be telephoned to the society editor, 4800 and 1404, after 6 p. m., or brought to the office of the Monroe News-Star between the hours of 7:30 a. m. and 3 p. m.

MIDSUMMER NIGHT

On this night when dreams come true
(For all wise folk know they do),
Heart and I keep rendezvous,

And while waiting sleep review
Lovely things we're going to do—
Plans and fantasies renew.

Castle-building we pursue;
Stroll the dream road leading to
Pampelune, known to few;

Wander happy valleys through,
Sweet with morning sun and dew,
Under skies forever blue.

Romance old, yet ever new—
Planned, envolved, and made for two
Which, of course, means me and you!

Sleep, thus having learned its cue,
Sends me without more ado
Dreams like these, which will come
true.

—Mazie V. Caruthers in the New York Times.

The race for queen of the "Hello Prosperity" events which are planned for Thursday seems to be close and at present the honors appear to lie between Misses Ann Hardie and Priscilla Hodge. The balloting will end at nine o'clock Thursday night at Neville auditorium and Hotel Frances where the one selected will be crowned queen at the hour of 12 o'clock midnight.

Those in charge of arrangements for the show "Hello Prosperity," and the ball which is to follow, are anticipating a record-breaking attendance at both the show and dance. Headquarters, at 312 Harrison street in the Frances hotel building has been busy answering inquiries since late last week concerning the time the dance will begin. Bob Foster's Imperial Aces will play for the show and dance, therefore, the dance will start as quickly as the orchestra can get to the roof from the show, probably not later than eleven o'clock.

Katheryn Jean Harrel entertained her most intimate friends at her home in commemoration of her eighth birthday anniversary. Many interesting games were played throughout the afternoon. The principal feature of the afternoon was the cutting of the beautifully embossed birthday cake. Those enjoying this delightful fete were: Grace Zuface, James Perrine, Horace Bryan, Beon Harrell, Jr., Louise and Ralph Brown, Anita Harrell, Carver Wilkins, Dorothy Walters, Marjorie Wilkins, Dorothy Waldrop, Thelma Summers, Bonnie and Evelyn Summers, Mary Lois Darcy, Clyde Henderson and the little hostess, Kathryn Jean Harrell.

Mrs. Harrell was assisted by Miss Orlean Crockett, Miss Collie Brown and Mrs. J. R. Brown.

Mr. and Mrs. Louis Masur had planned to leave early Wednesday morning on their automobile trip to Chicago but due to the illness of their son postponed their trip for a few days. They anticipate spending a month at the Park Lake hotel, on the shores of Lake Michigan.

Msses Ethel and Iva Kent of Pollock, La., returned home following a pleasant visit in the home of Mrs. Charles Fanzica.

Miss Suzonne Sperry, lovely member of the younger set, who will leave tomorrow morning, with her mother, Mrs. Gladys Sperry, and party for a motor trip to Chicago, where they will be guests at the Gladstone hotel for two weeks.

Mrs. Gladys Sperry accompanied by her daughter and son, Miss Suzonne Sperry and Burt Sperry, and her nephew, Thomas Broadway Royster and Kent Breard, will leave at an early hour Wednesday morning on a motor trip to Chicago where they will be guests at the Gladstone hotel for two weeks. They are anticipating a wonderful time visiting the Century of Progress Exposition and the many other places of interest.

Mr. and Mrs. W. J. Meyer and daughter, Miss Violet Meyer, motored to Chicago this morning where they will be guests at the Chicago Beach hotel. Mrs. Meyer and Miss Meyer will be absent from the city until late in September.

With iced-tea fans demanding their frosted glasses these hot afternoons, the Bureau of Home Economics comes forward with suggestions on how to make the beverage to "the queen's taste."

There is all the difference in the world, it says, between "just cold tea and a dainty pitcher filled with a golden-brown liquid, tinkling with ice and garnished with green leaves and slices of lemon."

Here, say the federal food experts, is the best way to make tea.

Use a teapot, preferably of earthenware, china or glass. Heat it by scalding with boiling water. Strength of the brew can vary, but the standard quantity is usually about "a teaspoonful to each cup desired."

Always use freshly drawn water, measure it and bring it to a bub- tea leaves. Water boiled too long bling boil before pouring it on the makes tea flat.

If the water is not actually boiling, it will not bring out the full strength of the tea. Steep three to four minutes for clear tea and four to five minutes to serve with cream and milk or for iced tea.

Serve promptly of pour it off into another previously scalded receptacle. Never boil tea and never use tea leaves a second time.

Green and Oolong teas often are preferred for serving plain or with sugar and lemon. The black teas when served hot are better with cream or milk, although they can be served without either. Sweetening is a matter of taste.

If the black teas are served clear it is considered better to brew them from three to four minutes for hot tea and from four to five minutes for iced tea.

Mrs. A. L. Bertrand of Sulphur Springs, Mo., is visiting in the homes of her sisters, Mrs. E. H. Hill and Mrs. Blanks Parker, Mrs. Betrand is spending most of her time at the bedside of her nephew, Walter Lee Hill, who has been seriously ill for the past week.

Mrs. T. H. McMillan has returned from a three week's visit in Shreveport in the home of her son-in-law and daughter, Mr. and Mrs. John Permenter where she was privileged to make the acquaintance of her new granddaughter, Evangeline, who arrived last month. She is Mr. and Mrs. Permenter's first child.

Mr. and Mrs. M. D. Ruffin motoring home from a visit with friends in Mississippi had the misfortune to meet with an accident which completely wrecked their automobile.

Mrs. Louise Harberson is visiting friends in Chicago enjoying the World's Fair and incidentally attended the national convention of the Business and Professional Women.

Mrs. George Lofton has returned from a visit with Mr. Lofton's mother in Little Rock where she spent the period of convalescence following an operation at the clinic several weeks ago.

Mrs. A. B. Gregory motored to Shreveport Monday to join her daughter, Miss Jane Gregory who has been visiting in the home of Miss Ruth Fouls for the past two weeks.

With everyone in Monroe world's fair minded and all roads leading to Chicago a few hints by an old inhabitant as to what to do and how to do it my not come amiss, especially when time is valuable and only the high spots are touched.

In the first place, you will, unless you are motoring, arrive about the middle of the morning, just in time for a hot bath and a change of clothes before luncheon. Restrain your impatience to visit the exposition until evening, for world's fairs, like most foreign cities and all really celebrated actresses, look their best by artificial light. In the meantime I'd suggest that you wander down the boulevard after lunch and have a look at the official exhibition of paintings and sculpture, which is housed, for obvious reasons n a fireproof art institute. You will appreciate it far more now than later, when you will probably have acquired a definite crick in your neck from gaping at wonders, and a pair of permanent museum feet. There is no doubt that it is the best show of the kind ever held in America. See Whistler's "Mother," lent by the Louvre, the German and Italian primitives, a roomful of Dutch masters you'd have to go to Holland to beat, besides an unrivaled collection of the finest work of Manet, Monet, Renoir, Van Gogh, Cezanne, Matisse, and Picasso, to name just a few of its glories.

Now for the fair itself! If I were you, I'd approach it for the first time by boat. You can get one most conveniently at the station by the Wrigley building and the Michigan avenue bridge; the fare, at present writing, is a dollar, which is no more than a taxi would charge for a similar distance; and the boat has the double advantage of displaying the famous Chicago skyline as it glides down the river, past the feathered green of Grant park, and of depositing you well inside the grounds at a landing just south of the island—of which more later. Here you are within a stone's throw of "The Streets of Paris," but on this your first evening at the fair (I pray it may be warm and not too windy!) I'd advise you to take the wooden bridge leading to the south end of the island and dine at the Pabst Blue Ribbon Casino, which is the first restaurant you'll find on your left.

The island with the adjacent parts of the mainland which together enclose the lagoon—a rectangle almost a mile in length—is, as you will soon discover, the most chic part of "A Century of Progress," and, all things considered, the Casino is the smartest restaurant.

"The Streets of Paris" will be busy enough to warrant a visit. This is one of the most successful concessions at the fair. It comprises a trick entrance up a gang-plank and through a cross-section of one of the giants of the French line, two squares and a number of streets thickly peppered with shops and bars and peep-shows of various sorts.

There are over eighty miles of exhibits, most of them of a frankly commercial nature. They cost about thirty million dollars, and it would take you a fortnight, I am reliably informed, working ten hours a day, to inspect them, allowing two minutes for each. My task is merely to show you how to be happy, if I may say so, in spite of the exhibits.

By the time you've reached the south end of the electrcal building you will be tired and, very likely, it will be lunch time; so why not stop at the Enchanted Island, the pleasant children's section of the world's fair—largely patronized by exhausted adults trying to "get away from it all"—and sample the food at the Toy Town Tavern? It has been decorated by Tony Sarg and is run by the Harveys of dining-car fame, sure proof of its one-hundred-per-cent-American excellence. After lunch you may be lucky enough to catch Tony Sarg marionettes in action at the Children's theater, or perhaps a performance by the Junior League players, whose "Peter Pan" was a recent triumph.

Then home for a rest before dnner, which you might have on the mainland, for a change, at Old Heidelberg, most handily reached on foot from the Twenty-third street entrance. (Try their Sauerbraten and, for a sweet, a genuine Linzertorte or Berliner Pfannkuchen.) They have music and Munchener beer; it is cool and comfortable and well run; there are six dining-rooms; and the food is authentic, though the setting is not.

Just across the way from Old Heidelberg and not far from the prehistoric monsters is the Belgian village, a most charming reproduction of an old Flemish town, complete with red brick church, ornate hotel-de-ville, stepped-gabled houses, and cobbled streets. The walls are so high that they shut out the sights and sounds of the fair, and in a secluded corner you will come upon an endearingly unpretentious estaminet, where you can pause for a peaceful glass of beer and a peasant tune on the accordion and fancy yourself at least four thousand miles away. I could spend hours in the oasis of the Belgian village.

Near at hand is the Travel and Transport building, whose main attractions are the famous trains, dating from the earliest pioneer engine that steamed out of Chicago to the Royal Scot, England's premier train-de-luxe.

Now hop on a bus and traverse the long stretch of uninviting ground that is given over to cheap amusement consessions of the Coney Island type back to the hall of science and the heart of the fair once more. I don't know that there is anything in this intervening space worth the trouble of alighting to visit. You might—about half way—stop off to see the Seminole village, where the much-touted alligators wrestle (I found them rather pleasing). Next door to the alligators is the Victor Vienna cafe, where if it should happene to be time to eat, you might do worse than order their goulash and noodles or Frankfurters mit Kartoffelsalat.

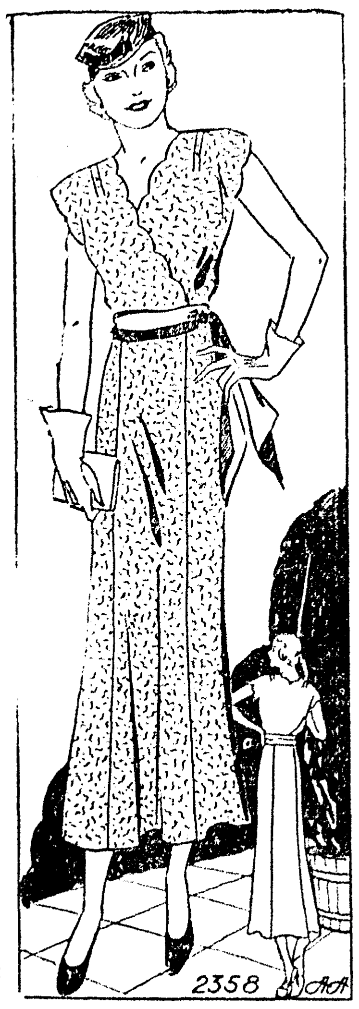
News-Star Daily Pattern

MAKE THIS FOR WARM WEATHER
PATTERN 2358

by Anne Adams



No need to suggest the places you might wear it . . . an all-occasion frock for every hour of the day. No extra bother or fuss to create its smartness . . . a few yards of a gay, colorful print, be it silk or cotton, two shades of ribbon for striking contrast and one, just one afternoon for sewing, are your needs. With a closet full of such simple frocks . . . your summer will be a successful one.

Pattern 2358 may be ordered only in sizes 14, 16, 18, 20, 32, 34, 36, 38, 40 and 42. Size 16 requires 3 5-8 yards 39-inch fabric and 2 yards 5-inch ribbon. Illustrated step-by-step sewing instructions included with this pattern.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for this Anne Adams pattern. Write plainly your name, address and style number. BE SURE TO STATE SIZE WANTED.

SEND FOR THE ANNE ADAMS FASHION BOOK, showing Paris-inspired models for every sewing need—all practical and easy and economical to make. Models for the larger figure, junior and kiddie styles; lingerie and accessory patterns are also featured. PRICE OF CATALOG, FIFTEEN CENTS. CATALOG AND PATTERN TOGETHER TWENTY-FIVE CENTS.

Address all mail orders to Monroe News-Star Pattern Department, 243 West 17th street, New York City.

Mr. James Sparks has returned from New Orleans where he passed successfully the Louisiana bar examination and will spend the summer with his mother, Mrs. R. C. Sparks, Sr.

Mrs. A. K. Kilpatrick left yesterday for points in Alabama where she will be the guest of friends for two weeks.

Mr. and Mrs. Ben Downing are enjoying their vacation in Chicago where they are visiting the world's fair and other places of interest.

Mr. and Mrs. Philip Chauvin and two lovely daughters, Misses Coralie Ellen and Alva Love Chauvin of Little Rock, Ark., completed a pleasant visit with Mr. Chauvin's brother-in-law and sister, Mr. and Mrs. Clarence Slagle at Gray Gables and returned to their home Monday evening.

Friends will regret to learn that Mrs. W. A. Chatham had the misfortune to fall and break her arm and is confined to her home on Layton Ave.

Mr. and Mrs. W. K. Anders, Jr., have returned from a motor trip in the northern part of Texas and in Sulphur Springs where they were delightfululy entertained in the home of Judge and Mrs. Grover Sellers.

Miss Adele Mallery of Mansfield, La., is the guest of Mr. and Mrs. J. H. Mallery of the west side.

Messers David Kaplan and Harry Kuhn of the Monroe Furniture company have returned from Chicago, where they visited the furniture market and also attended the Century of Progress Exposition.

Mr. Vincent Anzalone has returned from a visit with friends in Natchez, Miss.

Mr. E. E. Merideth will leave Thursday for New Orleans and the Gulf coast where he will enjoy his vacation at the White House, in Biloxi, Miss.

Mrs. P. M. Atkins and daughter Miss Ruth Atkins spent the week end as guests at the Vicksburg hotel, Vicksburg, Miss.

SANTIAGO, Chile.—(AP)—Authorities warring on organized begging here uncovered an organization which hired men, women and children to beg at a daily wage plus a percentage of the "take." The ring's own detective force watched the hired beggars.

SUB ROSA

By Virginia Vane

WHERE DOES POOR FATHER'S RESPONSIBILITY END?

Dear Virginia Vane: Please let me know whether I am right or wrong in my ideas. My mother died two years ago. After that, four of us married daughters moved into our father's house—with our two unmarried brothers. My father objected finally saying that our children were too rambunctious in the home, and we all moved out. Then my father married again. We are now living in houses owned by my father so we do not pay rent. Three of us have husbands out of work and we have to go to my father practically every day for money for food and clothes. My father's new wife is furious at this. She is given two dollars a day for food and clothes and says that this is too little. We belong to our father and we are his responsibility. Our stepmother is simply a new wife. She is talking of leaving him now. What is your opinion of her? A. G.

You talk as if being "merely a new wife" absolutely deprived your stepmother of the usual rights and privileges of wifehood. Is she to be treated with less consideration than most women because she hasn't been married sufficiently long?

It is kind of your father to help you while you're in trouble—but don't ever get the idea in your head that you and your husband and your children are all your poor father's responsibility. He didn't undertake to support a son-in-law when he gave his consent to your marriage—and nothing could be worse for any son-in-law than to get the fixed idea in his mind that somebody else can always be depended on to pay the bills.

You have no earthly basis for "claiming" anything from your fond parent. In these hard times many people are helping each other out—sacrificing here and there to give each other a boost up now and then. But it can't be a permanent state of affairs. There must be no feeling that because someone gives you a helping hand in time of trouble, he is under contract to keep the helping hand extended permanently.

The poor new wife probably didn't realize when she married your father that he and she were to support three growing families. You can understand that she is resentful especially if your attitude is rather a take-it-for-granted one.

Get over thinking that father has to go on doling out cash all the rest of his life. He gave you your start in life—he sent you out in the world to be an independent member of society. If he's kind enough to take you under his wing again while you're in desperate need be eternally grateful for this—and sympathize with his wife who has to scrimp and save in order that you should all be helped.

Above everything else, DON'T imbue your husband with your spirit of "gimme." Once that young man gets into his head that it is his right and due to sit home and accept money from your father, you'll have a horrid little problem to deal with—of your own making. Be sympathetic and helpful in all your dealings with your spouse but never let him forget that jobs are coming back and when they do he should be up and out looking for one to free himself from financial dependence.

Advice Wanted

Dear Milss Vane: I am coming to you with a problem which I hope your readers will help me with. I went away from my wealthy family because they wanted me to marry an old man who happened to be rich. I live now with a friend of moderate means and want a job but have no references. I have been through college, studied design and interior decorating here and in France and Spain. I love to create beautiful rooms but have no capital to start a business of my own. Can anyone tell me what steps to take in order to start work of this nature? Or indeed can anyone suggest how a young woman of 27 might start life all over again for herself? I should be grateful for any advice someone might give me. Perhaps there is someone who has been in my position and knows the ropes.

MARCIA.

Will any interested reader who has advice to give please send it to me and it will be either sent on to Marcia, or printed in this column. There may be some one of you who have faced her problem and have something constructive and helpful to say

(Copyright, 1933, Bell Syndicate, Inc.)

The invention of dancing was ascribede to the god Thoth by the ancient Egyptians.

The White Cockatoo

by Mignon G. Eberhart

Chapter 46
WHO IS "FRANCIS"?

"WHAT do you— Go on."

"Don't interrupt me, please," said Lorn crankily. "It's very simple. You see, when Tally came to consult me he'd just slipped on a wet street in traffic and got involved somehow with a taxicab and flying glass. It wasn't serious, he told me, but his face was heavily bandaged. That was, of course, fully six months ago. And I've not seen him since."

"Where was that meeting?"

"In New York."

"Was he the same general build as this man?"

"Of course," said Lorn impatiently. "Do you think I haven't tried every test? I'm willing to admit that he may have deliberately got himself up to give me no definite way of identifying him again. But whatever was the purpose, the fact remains that I can't tell whether this man is Francis Tally or not."

"But this man recognized you. Spoke first. Called you by name."

The scorn in Lorn's gaze made itself felt though he was still in the shadow.

"Have you failed to consider a possible connection between the Lovschiems and this man? Of their informing him carefully of everything they have managed to discover? In case—of course—he is actually not Francis Tally?"

"No—" I said slowly. "No—I've not failed to do that." Several things returned to me. Grethe's sudden activity after that period of curiously patient, cat-like waiting; the way she'd looked at the newcomer when he floundered; the way his eyes had sought hers there in the lounge—had it been for guidance?

Briefly I told Lorn of the timetable Lovschiem had tried to conceal; he too, he agreed, had noted the curious effect the man called Francis Tally gave of looking to Grethe for help

"The thing to do," said Lorn, "as I see it, is simply to sit tight until the Paris detectives come. They'll make an end to things in a hurry."

"But, Miss Tally—" I said.

"We'll advise her to hang on to her token, take no chances, and wait for the detectives. In the meantime—" He paused, and then continued: "I may as well tell you, Sundean, that I think I know what the motive power is."

"You mean," I cried excitedly, forcing him for once to a definite statement, "the murderer?"

"Don't ask me any more now, Sundean. And I must go. Tell Miss Tally what I've told you, will you?"

We walked together to the stairway. He went down, met Mrs. Byng and Sue on the landing, crossed the lounge and entered the lobby. At the desk Lorn paused and spoke to Lovschiem. Yet—of course, that did not mean that Lovschiem was, after all, the murderer.

I TURNED to meet Sue and Mrs. Byng.

"I suppose," Mrs. Byng was shouting, "that we must eat dinner in this den of perdition. But don't worry darling." She moved ahead of us in the narrow corridor, walking with a strange stiffness and lack of freedom brought on probably by her entangling garments.

Sue dropped back a little with me, and under the continued boom of Mrs. Byng's voice I asked to see Francis's letter again. "Envelope and all," I said. "As soon as possible."

She nodded. "I'll get it."

Mrs. Byng, still talking, stopped in her own room, closed the door, and I heard her lock it. I went into Sue's room with her and she handed me the square white envelope. I took it and moved under the light to look at the address more closely.

"That light is very dim," said Sue. "I'll turn on this one over the table."

She moved to the door; I heard it close and waited for the little click of the light switch. It did not come.

I heard her light footsteps behind me, and the bottom dropped out of the world.

"Put up your hands," she said coldly and crisply.

I felt the cold pressure of a pistol against my neck.

"I mean it," she repeated in a hard voice I'd never heard before. "Put up your hands."

It was impossible to obey. In fact, and in spite of that ominous cold touch on my neck, I believe I was too numb with shock to lift my hands.

Then slowly I turned. The girl backed away so that she still held me in range of that small pistol. The girl was not Sue Tally—or rather she was not the girl I knew as Sue Tally.

For when I said slowly: "Who are you?" she replied:

"I am Sue Tally. I've told you twice to put up your hands. This gun is loaded, and I'm a good shot."

I stood there looking at her. She was of the same general height and build as Sue but lacked Sue's fineness of wrist and ankle and delicacy of proportion. She was fair, too, and wore her hair like Sue's. She was even dressed in a black velvet coat, like Sue's. But she did not resemble Sue in the least. A general written description of height, weight, and coloring might have applied to them both, but they were not at all alike.

Then a horrified question crashed upon me. Where was Sue? What had happened? Where had she gone?

"You don't want to shoot me," I said. "It won't do you any good. There are too many gendarmes in the place for you to escape."

"They are drinkin in the kitchen. Paul likes having them there." She spoke a little contemptuously, but her hard eyes did not waver from mine. "I am Sue Tally," she reiterated, "and I want the paper you took from the priest's room a short time ago. Don't deny it, for I saw you. That paper belongs to me."

"SO you are Sue Tally," I said thoughtfully. "I had suspected your presence for some time. Can't we sit down and talk this over more amicably?"

She did not relax her hold or the pistol and eyed me suspiciously. I went on:

"Where have they been keeping you all this time? Hasn't it grown a little tiresome, dodging the police, hiding here and there?"

She bit her lip. I thought suddenly that there was something at the same time shrewd and stupid about her face.

She said: "It was easy enough. All but those nights in the storeroom. Come, give me the paper."

So it was she in the storeroom; I had not expected that, even though I had guessed that she was about somewhere, waiting to carry out her rôle in the conspiracy.

"In the storeroom," I repeated sympathetically. "You poor girl. It must have been most uncomfortable. The smoke from your cigarettes drifted up to me one night."

"Oh, it wasn't difficult to stay out of people's way. Anyway, at a distance I look rather like—this other girl. I had this coat made like hers on purpose. Of course, I've not been in the hotel all the time. I've been staying at Paul's — the cook's house."

"Oh, so you've been staying at Paul's. I thought the girl had been bored and dull; she was probably not averse to talking to someone. Her hand did not waver with the pistol, but she was looking rather approvingly at me. "The Lovschiem's haven't been treating you very well, have they?"

It was a lucky thing to say.

"No," she flashed. "They forget how important I am to them—" She checked herself quickly, but it was too late.

"I've seen you before, you know."

"When?" she said incredulously.

"Looking from the third-story window — I suppose you were lodged there then—the night of the first murder."

She bit her lip again, and to my astonishment and intense discomfort tears came welling up into her too-large eyes. I should have preferred her to remain hard and shrewd.

"And Mrs. Byng saw you too—when you turned out the hotel lights. I suppose that was after Madame Lovschiem had said you must hide from the police who were coming."

She nodded without, I think, realizing what she was doing.

"They didn't tell me it would be like this," she said sullenly, the tears still hanging there in her eyes. "They ought to have told me."

Possibly I ought to feel a decent compunction for my not too diplomatic behavior. But I didn't—either then or thereafter. I was, even, too hurried for finesse. I said with sympathy: "You poor girl. They've treated you very badly, haven't they?" And I looked at her with crass admiration and murmured: "So beautiful—"

Her eyes stopped looking faintly like oysters and strayed to the mirror. The second's wavering gave me my chance— I sprang toward her.

Pirates Back in Thick of National League Pennant Race

HURLERS, BATTERS GET OVER SLUMP; TEAM IS WINNING

Pittsburgh Beats Dodgers Twice and Threaten Loop Leaders

By Herbert W. Barker
(Associated Press Sports Writer)

Recovered from a batting and pitching slump that threatened for a time plunge them into the second division, the Pittsburgh Pirates were ack in the thick of the National eague pennant fight Tuesday.

Their pitchers clicking again and gain and their highly-touted outfield, specially Paul Waner and Freddie indstrom, beginning to wallop the all, the Pirates have won eight ames of the 12 they've played since ie home stand began and now trail ie second place Chicago Cubs by nly half a game and the pace-setng New York Giants by four. loreover, in the vital matter of games st the Corsairs show a two-game dge over the Cubs who owe their rip on second place to the fact that ey've won three more games than ie Pirates.

Taking full advantage of the fact hat they had the major league stage ll to themselves Monday, George Gibson's hopefuls trounced the Dodgers in both ends of a doubleeader, 14-2 and 7-0.

Brooklyn's ace twirlers, Owen Caroll and Ray Benge, officially were harged with the defeats but Fred Heimach, making his first appearance ince June 24, when the Pirates lugged him for nine hits and seven uns in one inning, was the chief ufferer. Heimach was called to the nound at the start of the eighth inning of the first game with Pittsburgh leading, 5-1, and before he ould be removed the Corsairs had ounced on him for seven hits and ight runs with only one put out.

Pittsburgh pounded Benge hard in he second game and finally drove im to cover with a four-run splurge n the fifth, Steve Swetonic's third f the game, a triple, driving in two f them. Swetonic, allowing the Dodgers only seven scattered hits, never was in trouble.

Bill Swift likewise pitched sevenhit ball in the opener and only one of Brooklyn's two runs was earned. Pie Traynor, with six hits, and Lindtrom with five, were the afternoon's outstanding sluggers.

The defeat left the Dodgers only a half game ahead of the seventh place Phillies and only 2 1-2 games out of the cellar.

All other major league clubs were dle.

First Round Matches Are Completed at Greenville

GREENVILLE, Miss., July 18.—(AP)—Fourteen players remained Monday night in the third annual Greenville Country club invitational tennis tournament as first round singles matches were completed, with quarter finals to be reached Tuesday and initial round of doubles to be played Tuesday afternoon.

Billy Simpson, Sumners net ace who is defending his championship, drew a bye in the opening round.

Only one seeded player, Charles Williams, Benoit, was eliminated. Seeded singles players were ranked as follows:

Billy Simpson, John Graebar, Aubrey Sievers, Jim Collins, Donald Wetherbee, Pinkie Young and Charles Williams.

Injured Wrestler Enters Hospital for Treatment

HOUSTON, Texas July 18.—(AP)—Paul Jones, Houston heavyweight whestler injured in an automobile wreck near Eutaw, Ala., last Thursday, entered a hospital here Monday night for treatment. His condition was not regarded serious.

Following the treatment Jones will undergo a slight plastic operation made necessary by the wound.

The wreck in which Jones was injured cost George Kotsonaros, Los Angeles heavyweight wrestler, his life. The wrestlers were en route to New Orleans from Nashville at the time of the mishap.

Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs—once or twice a week for several weeks—and see how Nature rewards you with health.

Calotabs purify the blood by activating the liver, kidneys, stomach and bowels. In 10 cent and 35 cent packages. All dealers. (adv.)

Mile In Four Minutes Flat Predicted By A.A.U. Head

By Alan Gould
(Associated Press Sports Writer)

NEW YORK, July 18.—(AP)—The "four-minute mile" that has always seemed just a pipe-dream to footracing followers now may be just around the corner, in the opinion of even the most conservative of experts who discussed the future of mile-running Monday on the basis of Jack Lovelock's marvelous 4:06:6 record at Princeton Saturday.

"It may seem fantastic, but under the proper conditions, and particularly if it were possible to bring together the greatest three milers in the world today—Lovelock, Bill Bonthron and Glenn Cunningham—I think we might see the mile run in four minutes flat," said Daniel J. Ferris, national secretary-treasurer of the Amateur Athletic union, who has seen all the great milers, from Tommy Conneff to Lovelock, run their record races.

Ferris concedes the throne of mile running now to Lovelock, the slim New Zealander and Oxford medical student, but he does not think Lovelock has any more class of natural ability than either Bonthron or Cunningham.

"Put them in a series of three races and I would not be surprised to see a different winner each time," said Ferris. "They all have a tremendous 'kick'. The result of Saturday's race might have been reversed, with Bonthron the winner and new recordholder, if the American had forced Lovelock to set the pace. That was what Bonthron was instructed to do but he evidently was so confident of himself that he decided to set the pace himself. This gave Lovelock a big advantage on the final lap."

Lovelock already has been approached on a proposal to revisit the United States next winter for a series of indoor mile races, against Bonthron, Cunningham and Gene Venzke of Pennsylvania, who holds the board track mark of 4:10 for the distance. The New Zealander probably cannot accept, however, because his studies at Oxford will keep him tied down until March.

Before leaving for Canada, where he competes twice this week, Lovelock told his American friends he hoped to keep in training and have an opportunity to race Cunningham in Europe. The great Kansas runner, whose best mile mark is 4:09 4-5, is touring the continent with an all-star team but no meets are booked in Great Britain.

Bonthron can take his vacation in New Hampshire with the knowledge his second-place mark of 4:08.7, the second fastest mile in history, will be accepted by the A. A. U., as the "best mark by an American citizen." There is a special category now in the official record books, to cover the homebred performances in cases where they are surpassed by an invader.

BILL BONTHRON

SIMMONS THINKS YANKS WILL WIN

Chicago Slugger Says McCarthy's Team Will Beat Out Nats

NEW YORK, July 18.—(AP)—Aloysius Simmons, the young man who has belted the Chicago White Sox out of the hopeless class and into the ranks of the annoyers in half of one season, provided a piece for the papers Monday with the frank announcement that the New York Yankees will win the American league race again with the Washington Senators second.

Simmons

While that suspicion may be growing in other quarters since the Senators slumped and drifted down from a 4 1-2 game advantage to the tie that exists with the Yanks for the lead today, the clouting outfielder gave reasons.

"The Yanks have the best team in the league," he said. "If they don't repeat they will have only themselves to blame. They dislike the Senators so heartily that they've been pressing themselves out of a lot of games with them.

"Of course, the Senators are hot and the Yanks will have to watch their steps. But the Yanks have the pitching again and they're on their way to town. If they can beat Washington in half of the 12 games they play the rest of the way, then they're right in another world series."

Simmons isn't a bit bashful naming the third place team. That will be the White Sox.

Bryan and McDiarmid Win Southern Doubles Title

ATLANTA, July 18.—(AP)—Robert "Lefty" Bryan of Chattanooga and John McDiarmid of Fort Worth, Texas, runners-up in the national clay courts tournament a week ago, Monday won the southern tennis doubles championship.

They paired to defeat Malon Courts and Bryant Grant of Atlanta in straight sets by scores of 6-3, 6-3, 11-9.

The Bryant-McDiarmid combination clearly outclassed Grant and Courts in the first two sets but, after easing up somewhat, had a fight on their hands to win the third and deciding set after 20 games.

Courts, the partner of Grant, ranks far below Bryan and McDiarmid in the southern rating and it was toward him that the winning team players effectively directed their returns. However, Courts today played at near his top game while Grant, who won the singles championship from McDiarmid Saturday, was far off form.

BASTROP FARMERS

FARMERVILLE, July 18.—(Special)—The Bastrop Kraftmen scored five runs in the third inning Sunday to chase Nelson from the mound and defeat the Farmerville Farmers, 6 to 4, in a well played game.

Mattison relieved Nelson and allowed but two hits in seven innings. P. Spencer, on the mound for Bastrop, allowed but five safeties.

Quitman Long was the big noise in the Farmerville attack. Long drove in all four of the Farmers' runs, hitting a home run with one on base and later scoring a pair of his mates with a double. Three fast double plays were turned in, the Farmers making two of them. Both teams performed well afield.

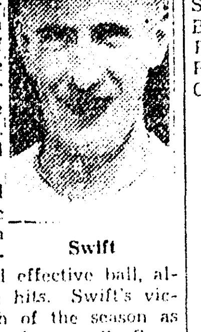
BUCS PILE UP 32 HITS IN BEATING BROOKLYN TWICE

Swift and Swetonic Hold Dodgers as Mates Hammer the Ball

PITTSBURGH, July 18.—(AP)—Snapping out of a hitting slump, the Pittsburgh Pirates Monday acquired 32 blows, swept a doubleheader with the Brooklyn Dodgers in the only games played in the major leagues and advanced within one-half game of the second place Cubs and four games of the league leading Giants. The scores were 14 to 2 and 7 to 0.



Swift

Bill Swift and Steve Swetonic not only joined in the slugging activities but pitched effective ball, allowing each seven hits. Swift's victory was his tenth of the season as compared to five defeats while Swetonic hung up his seventh triumph in scoring the shutout.

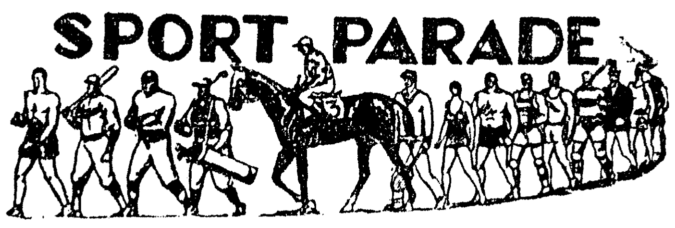
TODAY'S SPORT PARADE



By Henry McLemore
(United Press Staff Correspondent)

NEW YORK, July 18.—Eleven hundred and one years from Tuesday or July 18, 3034, to be exact, a young man in white shorts and smelling strongly of horse liniment will establish a new world's record of 0:00.0 for the mile run. In other words the young man whom we will call Matthew for short, will cover the eight furlong route in nothing flat.

There will be the usual black-faced streamers on the sports pages proclaiming the feat, and the usual interview with Matthew in which he will express pleasure at his time and point out that but for the presence of a slight head wind he would have done even better.

Matthew's feat will stir up the usual timing arguments, as the race will be run in the east (probably Sandwich, on Cape Cod), the west coast critics will deride the mark, pointing out that when Jug Hightower (Stanford's crack miler) ran his 0:00.1 mile he was timed by the radio-telephoto-robot, whereas Matthew's judges used the old-fashioned split-atomic-relativity-cell watch.

The argument will rage for months. It will be settled, however, when the sponsors of the international track and field carnival at Chicago offer Matthew $750 and expenses (the highest bid ever made to an amateur) to run in their meet, and Jug only $500.

Lest some readers proclaim us batty for predicting a 0:00.0 mile perhaps we should explain that our prophecy is based on mathematics or cold figures, as some of the boys delight in calling it.

In 1884 (the year Queen Victoria's letters made such distressing reading) one W. G. George of England, ran a mile in 4:18.4. Last Saturday, amid the bucolic atmosphere of Princeton, New Jersey, Jack Lovelock of New Zealand and Oxford ran a mile in 4:07.6.

For convenience sake, and out of respect for our dislike for dealing with anything improper, even though it be only fractions, let us assume that 11 seconds is the improvement made in those 49 years.

Once more for convenience sake, let us make that 49 years an even 50 years. Therefore, if it required 50 years to chop off 11 seconds, how many years will it require to bring the mark down to nothing flat?

Using a sharp No. 2 pencil and the back of a pawn ticket, we figured it would take roughly 1101 years, since Lovelock's time represents 247 seconds.

Wednesday's little essay will take you through Mammoth cave, clearing up, for all time, the difference between stalagmites and stalagtites. Don't miss it!

Sharkey to Hit Comeback Trail Against Levinsky

By Werner Laufer
(NEA Service Sports Writer)

NEW YORK, July 18.—In the belief that it was his own year's idleness rather than the uppercut of Primo Carnera that took away his championship, Jack Sharkey has set out on the trail nearly all the other ex-champions trod before him. But it is a trail that, for men past 30, leads nowhere.

In signing for a fight with King Levinsky in September in Chicago, Sharkey is expressing the conviction that he can come back, that he was trained for only a short fight against Primo and that he still can outbox most of the heavyweight stumblebums extant—with profit.

There is much to be said from Sharkey's angle. He was ahead of Primo on points until that sixth round when a short right hand exploded on his chin. In two of the rounds he had made a show of the big fellow.

He fought a good fight, a game fight if not an exceedingly smart one, and went down punching as a champion should.

Sharkey should beat the wild-swinging Levinsky. The Kingfish is a rugged battler, but over the ten-round route, Sharkey should be able to win by sheer boxing ability alone. The Carnera fight showed him what he will have to do in the way of training for this one.

After that the Boston sailor wants another crack at Tommy Loughran. He is sure he can beat Tommy, who also is beginning to show the effects of age and the wars.

Those two fights will let Sharkey know exactly where he stands as to physical condition. If Levinsky beats him, Sharkey probably will hang up the gloves for good.

It would be entirely in keeping with the makeup of the ex-champion if he should begin now to fight calmly and seriously, keeping those jittery emotions of his under control.

All his fights have been surprising. Even the grim and uncomplaining struggle he waged against Carnera was not the sort of thing the ringsiders had expected of him. Those who backed him to win looked for a fight in which Sharkey would peck and retreat.

Instead he stood and traded punches with a younger man who had something like a 50-pound weight advantage.

But then there is this against the Sharkey man. The chronicles of the ring are full of the pathetic stories of ex-champions who tried to come back and who found it a vain pursuit. They can't come back.

JACK SHARKEY

Chicago Derby May Be Revived at Hawthorne

CHICAGO, July 18.—(AP)—Because the Arlington classic failed to settle the tangled three-year-old championship situation, Hawthorne proposed Monday to revive the old Chicago Derby for $10,000 added on the first Saturday of its 30-day meeting which opens July 31, in an attempt to decide the championship situation.

Announcement that the race would be staged, provided the owners of the leading three-year-olds are really anxious to determine the title, was made today by Hawthorne's general manager, Joseph A. Murphy.

If the response warrants the race's staging, it will be fitted into the already imposing Hawthorne stake schedule by moving all other fixtures back one week.

Waterproof Team Noses Out Clayton Ramblers

CLAYTON, July 18.—(Special)—The Clayton Ramblers lost a close 3 to 2 decision to the Waterproof Tigers Friday. The game was a brilliant pitching duel between big Fred Hammett of the Ramblers, who allowed only five hits, four of which came in the first inning, and "Red" Johnson, of the Waterproof team, who permitted six bingles and kept them well scattered.

Zollie Cohn, well-known former professional and semi-pro performer, led the Tigers at bat, while little Jimmie Clayton, in addition to playing a fine game at shortstop, led the Clayton team's hitting.

The Ramblers' scheduled contest with Natchez Sunday was rained out. The local team has won 17 games and lost 11.

Score by innings:
Waterproof .....300 000 000—3
Clayton .....100 010 000—2

Spencer Team Wins Two Games From Huttig Nine

SPENCER, July 18.—(Special)—The Spencer Cubs won a twin bill from the Huttig, Ark., nine at Huttig Sunday, winning the opener 14 to 3, and the nightcap, 6 to 3. Nolan, local hurler, allowed but three hits in the first game, all coming in the first inning and one was a home run.

White, Huttig moundsman, allowed but four hits in the second game but his support was bad. Wheeler held the Arkansans to five hits in the last game.

Score by innings:

FIRST GAME
Spencer .....120 102 611—14
Huttig .....300 000 000— 3

SECOND GAME
Spencer .....120 002 1—6

DIPLOMAT PILOTS PLANE

BUENOS AIRES.—(AP)—John C. White, charge d'affaires of the American embassy here, purchased a plane, obtained a pilot's license and is flying for fun. White claims to be the first United States diplomata in Latin America to act as his own pilot.

Lloyd Waner Serving First Term on Bench

PITTSBURGH, July 18.—(AP)—For the first time since he joined the Pirates in 1927, Lloyd Waner, the "Little Poison" of the Pittsburgh Pirates' Waner brothers, is serving a "sentence" on the bench for poor hitting.

With a life time major league batting average of about .340, the little outfielder has been in a slump almost all this year, his mark standing now at .260. He is rated one of the best of the best lead-off hitters in either major league, but has been on the bench for a week.

"I hit 'em but it seems always somebody's in the way," is the only explanation the hard working outfielder has.

"A little rest will bring him around, I'm sure," Manager Gibson says.

Meanwhile, Adam Comorosky, subbing for Waner, has been hitting at a .295 clip and doing some nice fielding.

Qualifying Round at Muny Course Extended One Week

The qualifying round of the Ouachita parish golf tourney, now in progress at the Municipal Golf club, has been extended one week because rain last Sunday prevented a number of local golfers from qualifying, Lund Harper announced yesterday. The qualifying round will close next Sunday.

Approximately 30 players have posted their scores, Harper said. Others are expected to qualify during the week.

TWO JUNIOR GAMES

Two games were played yesterday in the Junior Recreation league, the Buffaloes walloping the Bulldogs, 28 to 9, and the Kiwanis Juniors trimming the Crackerjacks, 26 to 1.

Score by innings:		R.	H.	E.
Bulldogs	511 00 0 2	9	8	8
Buffaloes	1220 3110 *	28	30	2

Batteries—J. Savanna, A. Correro and N. Savana; Spencer and Roberts.

Score by innings:		R.	H.	E.
Crackerjacks	000 010 0	1	1	7
Kiwanis Juniors	015 659 *	26	17	3

Batteries—Gibbs and F. Guine; W. Stron and G. Hudson.

St. Joseph Man, Hurt In Accident, Improves

FERRIDAY, July 18.—(Special)—Spencer Adams, of St. Joseph, who was injured Sunday of last week in an accident near Jonesville, which proved fatal to his wife, has recovered sufficiently from his injuries to be removed from a Natchez hospital to his home. Mr. and Mrs. Adams were married in St. Joseph last January. Mr. Adams is employed by the Standard Oil company and Mrs. Adams before her marriage was a Miss Crane, a trained nurse.

Since 1800, the United States has purchased from foreign countries over 2,242,700 square miles of territory for which it has paid $93,500,000.

CUP TEAM'S CASH IS RUNNING LOW

Depreciation of Dollar Boosts Expenses of American Squad

PARIS, July 18.—(AP)—The American Davis cup squad faced two foes Monday as Ellsworth Vines, Wilmer Allison, George Lott and Johnny Van Ryn swung into the closing practices for the interzone matches with Great Britain starting Friday.

The first enemy, a British force consisting of Henry W. (Bunny) Austin, H. G. N. Lee, and George Patrick Hughes, arrived here Monday fresh from victory over Australia in the European zone finals at Wimbledon last week. Fred Perry, Britain's top ranked star, stayed behind for treatment of a slightly strained shoulder and is not due here until Tuesday.

The second problem maker was the disclosure that funds for the players are running dangerously low.

Although the appropriation this year was the same as in 1932, when France successfully defended the cup against America's challenge, Bernon S. Prentice, captain of the team, said he was worried Monday because bills were running 30 per cent higher than last year due to the decline in the value of the dollar.

One ray of hope was the advance sale for the interzone matches. The ticket sale has been so brisk that it is expected Roland Garros stadium here will be packed for the start of the first pair of singles Friday. The Americans and British share equally in the net profits.

Prentice feels that his squad is in fine shape and little remains to be done until Friday, when the battle starts for the right to challenge France the following week-end.

R. F. C. OPPOSES REVAMPING PLAN OF RAILWAY FIRM

Reorganization Proposal Placed Before Commerce Commission

WASHINGTON, July 18.—(AP)—The Reconstruction Finance corporation Tuesday joined with a group of banks and insurance companies in opposition to the plan for reorganization of the St. Louis-San Francisco Railway company, which is presenting its proposal for revamping its capital structure to the interstate commerce commission.

A. A. Berle, special advisor to the corporation, appeared at the opening of hearings.

In the hands of the federal court at St. Louis under the new bankruptcy act, the line has been in difficulties for nearly a year and prior to going into receivership was ordered to make some change in an effort to reduce its interest and rental payments.

The commission held at the time that the road's capital structure was top-heavy.

The banks opposing the reorganization plan contend the stockholders of the road have not been called upon to make sufficient sacrifices and that bankers for the road have received preferential treatment.

Several railroads which connect with the Frisco served notice that they will oppose any plan which does not provide for payment of their claims such as traffic balances, car service per diem and damage claims. These roads include the Atchison, Topeka and Santa Fe, the Chicago, Rock Island and Pacific, the Illinois Central and the Southern railway.

The Bank of New York and Trust company, holder of $2,500,000 of bonds, asserted its opposition to the plan and asked the return of its bonds, which have been deposited with a bondholders' committee.

Other banks and life insurance companies which hold bonds of the company also appeared in opposition.

New Orleans Mayor Authorized to Name Consumers' Council

NEW ORLEANS, July 18—(AP)—Desiring to protect the consumer against unwarranted food price increases, Mayor T. Semmes Walmsley has received authority from the city commission council to appoint a consumers' council which will investigate price fixing.

The mayor said the secretary of agriculture had asked large communities to set up agencies to give proper attention to protests and call attention of the government to any unwarranted food price increases.

The resolution creating the new body, adopted by the council Monday, said its duty was "to make investigations into price fixing and unwarranted food price increases in order that proper attention of officials may be directed toward any unwarranted or unjust increase of food prices."

The council will have 15 members.

CLUB WOMEN ARE TO CAMP DURING MONTH OF AUGUST

Mrs. Jewel McQuiller Announces Plans For Annual Outing

Mrs. Jewel McQuiller, parish home demonstration agent, announced Tuesday that dates have just been set for a three days' camp for women members of the various clubs of the parish and their friends. The women will open camp at Ki-Ro-Li on August 22 and will remain through August 24. The home demonstration council is sponsor of the encampment which will be the third successive year that these have been conducted.

"Last year the best camp ever was conducted," stated Mrs. McQuiller, "and we hope to equal or even surpass that record for this summer."

The home agent stated further that home craft, lectures, handcraft and other subjects will be embraced in the work.

The women will also have much time for recreation and relaxation which is regarded as the most important feature of the entire outing.

Further details will be announced through the press of this camp and of the studies in detail, Mrs. McQuiller declared.

License Tax On Pullman Company Is Held Invalid

NEW ORLEANS, July 18.—(AP)—The act of the 1932 Louisiana legislature authorizing a $7,500 license tax against the Pullman company in Louisiana has been declared unconstitutional by the three-judge federal court here.

The decision of the court, handed down Monday, ordered an interlocutory injunction restraining collection of the tax.

The court opinion held the act constituted an attempted regulation of interstate commerce.

It was rendered by Circuit Judge Rufus E. Foster and District Judges Allen Cox of Mississippi and Wayne G. Borah of New Orleans.

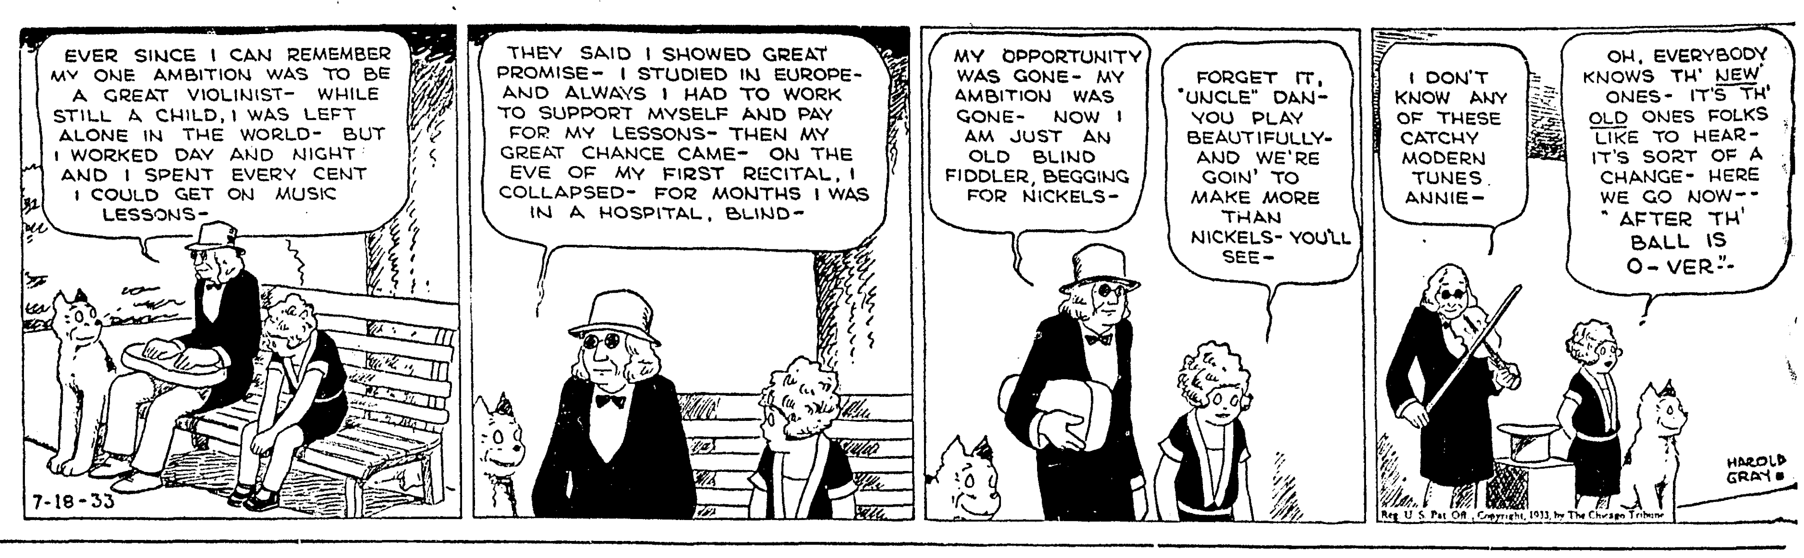
LITTLE ORPHAN ANNIE

Autobiography

—By Harold Gray



EVER SINCE I CAN REMEMBER MY ONE AMBITION WAS TO BE A GREAT VIOLINIST- WHILE STILL A CHILD, I WAS LEFT ALONE IN THE WORLD- BUT I WORKED DAY AND NIGHT AND I SPENT EVERY CENT I COULD GET ON MUSIC LESSONS-
7-18-33
THEY SAID I SHOWED GREAT PROMISE- I STUDIED IN EUROPE- AND ALWAYS I HAD TO WORK TO SUPPORT MYSELF AND PAY FOR MY LESSONS- THEN MY GREAT CHANCE CAME- ON THE EVE OF MY FIRST RECITAL, I COLLAPSED- FOR MONTHS I WAS IN A HOSPITAL, BLIND-
MY OPPORTUNITY WAS GONE- MY AMBITION WAS GONE- NOW I AM JUST AN OLD BLIND FIDDLER, BEGGING FOR NICKELS-
FORGET IT, "UNCLE" DAN- YOU PLAY BEAUTIFULLY- AND WE'RE GOIN' TO MAKE MORE THAN NICKELS- YOU'LL SEE-
I DON'T KNOW ANY OF THESE CATCHY MODERN TUNES ANNIE-
OH, EVERYBODY KNOWS TH' NEW ONES- IT'S TH' OLD ONES FOLKS LIKE TO HEAR- IT'S SORT OF A CHANGE- HERE WE GO NOW-- "AFTER TH' BALL IS O-VER"-
HAROLD GRAY

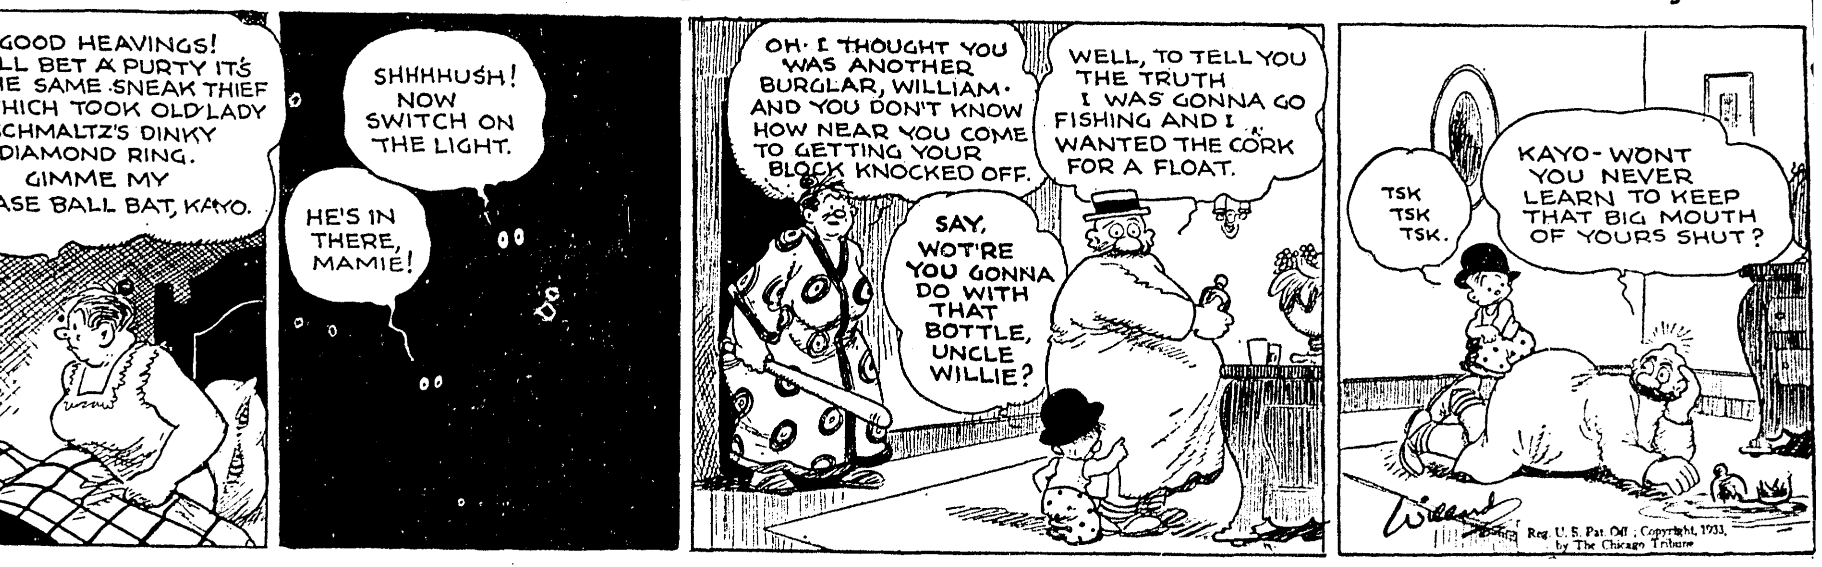
MOON MULLINS

No Nightcap for Uncle Willie

—By Willard



PSST! MAMIE THEY'S SOMEBODY PROWLIN' AROUND DOWNSTAIRS.
GOOD HEAVINGS! I'LL BET A PURTY IT'S THE SAME SNEAK THIEF WHICH TOOK OLD LADY SCHMALTZ'S DINKY DIAMOND RING. GIMME MY BASE BALL BAT, KAYO.
7-17
SHHHHUSH! NOW SWITCH ON THE LIGHT.
HE'S IN THERE, MAMIE!
OH- I THOUGHT YOU WAS ANOTHER BURGLAR, WILLIAM- AND YOU DON'T KNOW HOW NEAR YOU COME TO GETTING YOUR BLOCK KNOCKED OFF.
WELL, TO TELL YOU THE TRUTH I WAS GONNA GO FISHING AND I WANTED THE CORK FOR A FLOAT.
SAY, WOT'RE YOU GONNA DO WITH THAT BOTTLE, UNCLE WILLIE?
TSK TSK TSK.
KAYO- WONT YOU NEVER LEARN TO KEEP THAT BIG MOUTH OF YOURS SHUT?
Willard

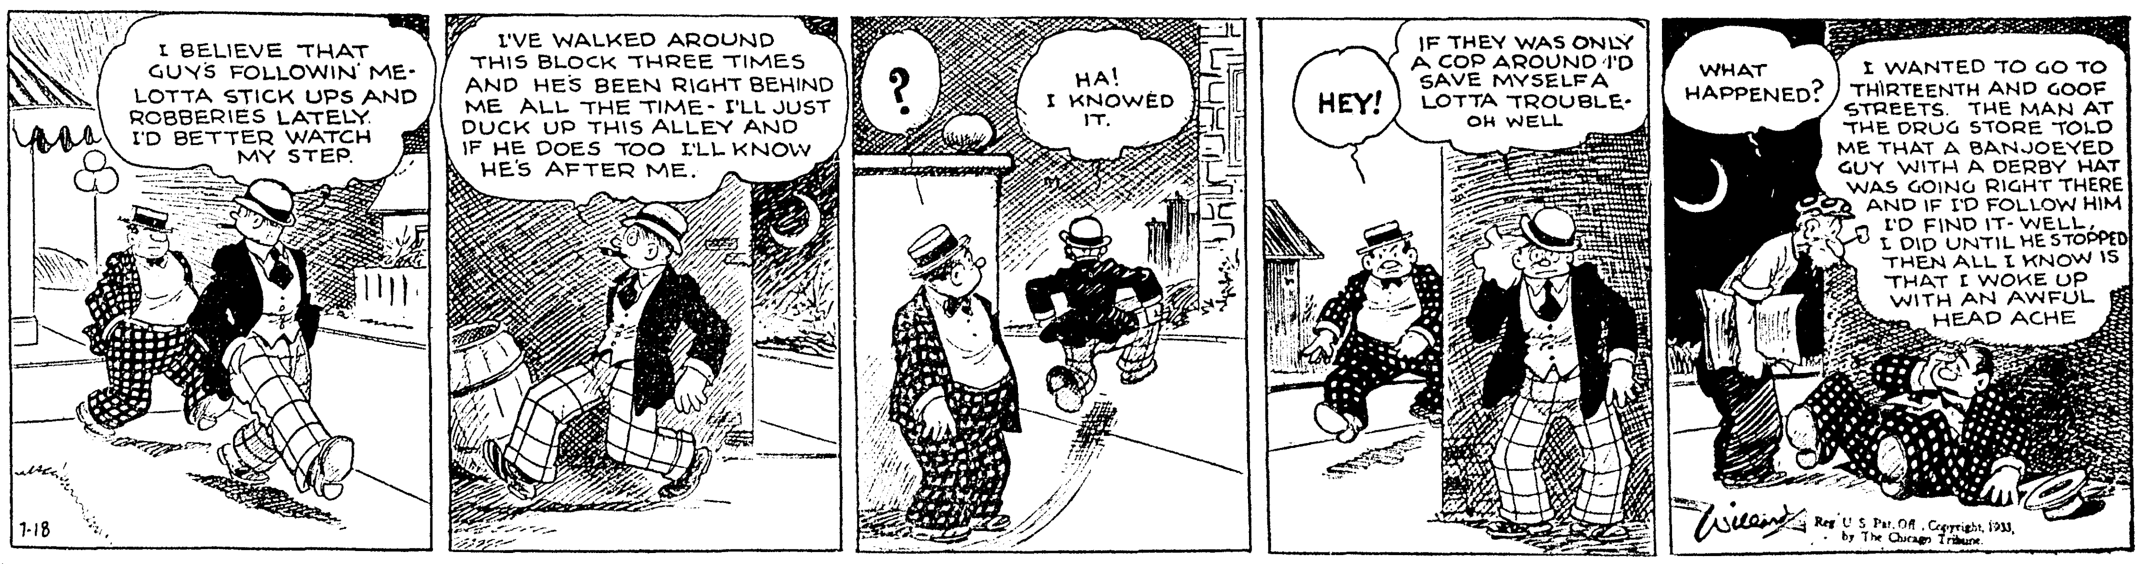
The Stranger Gets the Lay of the Land



I BELIEVE THAT GUY'S FOLLOWIN' ME- LOTTA STICK UPS AND ROBBERIES LATELY. I'D BETTER WATCH MY STEP.
7-18
I'VE WALKED AROUND THIS BLOCK THREE TIMES AND HE'S BEEN RIGHT BEHIND ME ALL THE TIME- I'LL JUST DUCK UP THIS ALLEY AND IF HE DOES TOO I'LL KNOW HE'S AFTER ME.
?
HA! I KNOWED IT.
HEY!
IF THEY WAS ONLY A COP AROUND I'D SAVE MYSELF A LOTTA TROUBLE- OH WELL
WHAT HAPPENED?
I WANTED TO GO TO THIRTEENTH AND GOOF STREETS. THE MAN AT THE DRUG STORE TOLD ME THAT A BANJOEYED GUY WITH A DERBY HAT WAS GOING RIGHT THERE AND IF I'D FOLLOW HIM I'D FIND IT- WELL, I DID UNTIL HE STOPPED THEN ALL I KNOW IS THAT I WOKE UP WITH AN AWFUL HEAD ACHE
Willard

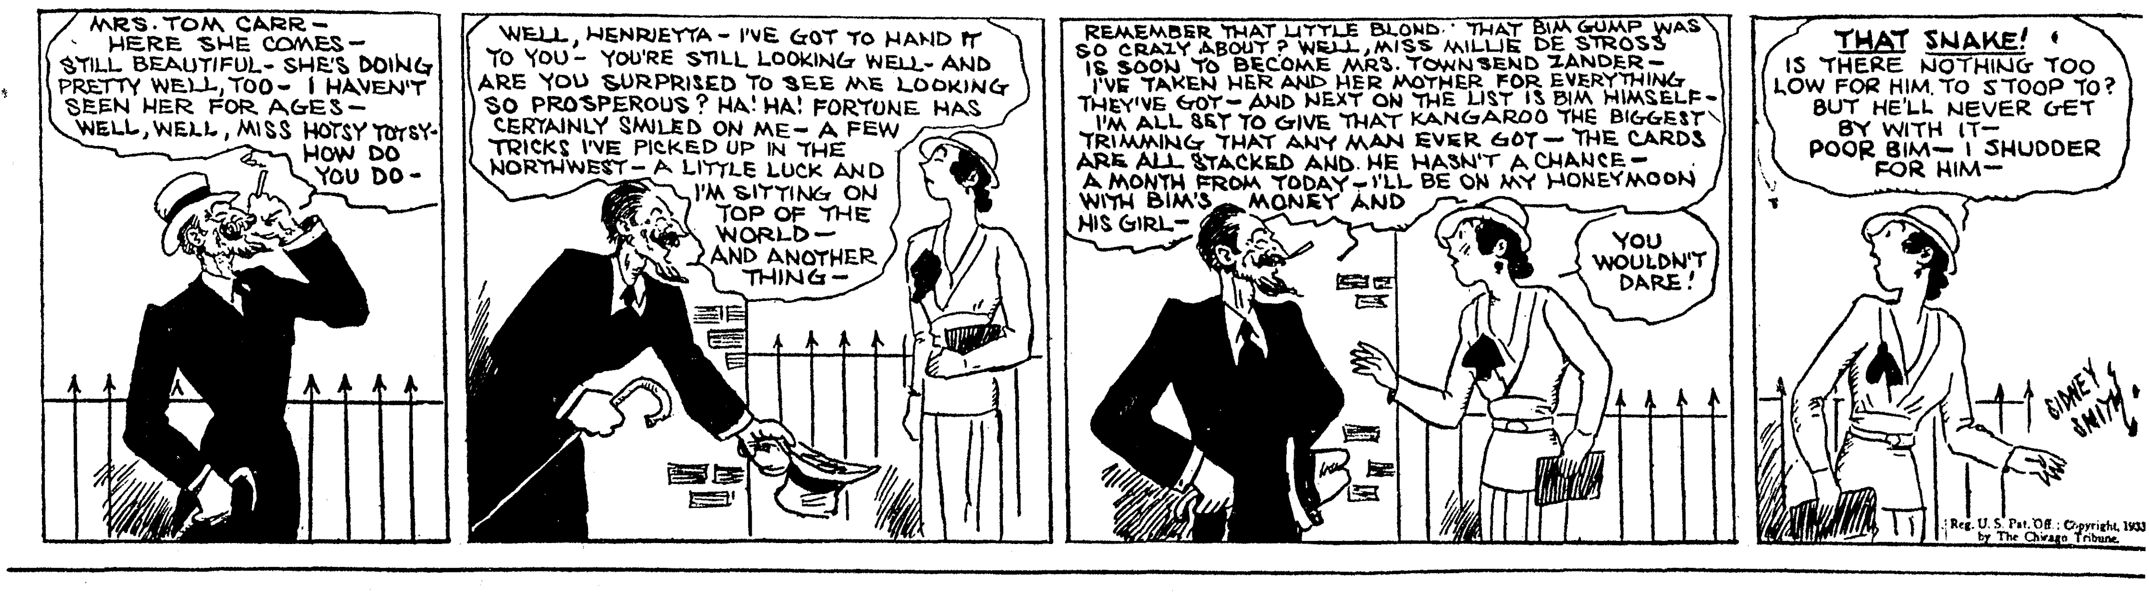
THE GUMPS

The Zanders

—By Sidney Smith



MRS. TOM CARR— HERE SHE COMES— STILL BEAUTIFUL- SHE'S DOING PRETTY WELL, TOO- I HAVEN'T SEEN HER FOR AGES— WELL, WELL, MISS HOTSY TOTSY- HOW DO YOU DO-
WELL, HENRIETTA- I'VE GOT TO HAND IT TO YOU- YOU'RE STILL LOOKING WELL- AND ARE YOU SURPRISED TO SEE ME LOOKING SO PROSPEROUS? HA! HA! FORTUNE HAS CERTAINLY SMILED ON ME- A FEW TRICKS I'VE PICKED UP IN THE NORTHWEST- A LITTLE LUCK AND I'M SITTING ON TOP OF THE WORLD— AND ANOTHER THING-
REMEMBER THAT LITTLE BLOND THAT BIM GUMP WAS SO CRAZY ABOUT? WELL, MISS MILLIE DE STROSS IS SOON TO BECOME MRS. TOWNSEND ZANDER— I'VE TAKEN HER AND HER MOTHER FOR EVERYTHING THEY'VE GOT— AND NEXT ON THE LIST IS BIM HIMSELF- I'M ALL SET TO GIVE THAT KANGAROO THE BIGGEST TRIMMING THAT ANY MAN EVER GOT— THE CARDS ARE ALL STACKED AND HE HASN'T A CHANCE— A MONTH FROM TODAY- I'LL BE ON MY HONEYMOON WITH BIM'S MONEY AND HIS GIRL—
YOU WOULDN'T DARE!
THAT SNAKE! IS THERE NOTHING TOO LOW FOR HIM TO STOOP TO? BUT HE'LL NEVER GET BY WITH IT- POOR BIM— I SHUDDER FOR HIM—
SIDNEY SMITH

K-161

The guards bound Jerry more securely, and tied both men fast to opposite sides of the hut. When they had gone Tarzan looked across at his companion in misery. "While there is life," he grinned, "there is hope." Lieutenant Cecil smiled back.

He said: "I fancy we are getting short on both. It must be getting close to the cannibals' suppertime!" . . . Zu-tag (Big-neck) hunted alone far from the balance of the tribe of Zu-b'yat. He had just arrived at maturity.

He was a large, powerful, ferocious beast whose full forehead denoted he was high above the average ape in intelligence. Today, he was returning along a river path because it led past the village of the Gormangani, whose peculiar manner of living interested him.

The cannibals always aroused Zu-tag's curiosity. Taking up a position in a tree where he could watch the blacks, he had just settled himself when with the cannibals, he was startled by the crashing of Taran's body within the palisade.

Markets -:- Financial

Cotton

New Orleans

NEW ORLEANS, July 18.—(AP)—Prices fluctuated rather freely in an active market Tuesday but the general trend was toward higher levels. October duplicated its season high in early trading and December and deliveries beyond made fresh tops for a two-year period.

The early advance was due to favorable news from Washington on the acreage leasing agreements, higher stocks and grains and a sharp advance in sterling. October rose to 11.98 and December to 12.18, or 23 points above the close of Monday. Later in the morning prices reacted sharply on heavy profit-taking and in sympathy with reactions in stocks and grains, helped by reports of needed Texas rains. October eased to 11.78 and December to 1.99, down 19 to 20 points from the early highs.

The market rallied again towards mid-session, recovering to 11.88 for October and 12.08 for December, up 9 to 10 points from the lows and 13 points above the previous close.

In early afternoon the market was erratic fluctuating near the mid-session level.

Exports for the day were 36,504 bales.

The market ruled erratic during the entire afternoon, fluctuating within the previous range, but was rather steadier near the end, October closing at 11.88 and December at 12.08. The closing tone was steady with the general market showing net advances for the day of 13 to 16 points.

Cotton futures closed steady at net advances of 13 to 16 points.

	Open	High	Low	Close
July	11.58	....	....	11.58

MARKETS AT A GLANCE

NEW YORK, July 18.—(AP)—Stocks irregular; mining shares rally. Bonds firm; rails advance. Curb irregular; alcohol stocks weak. Foreign exchanges strong; dollar hits new low. Cotton quiet; higher sterling exchange; Wall Street buying. Sugar firm; trade covering. Coffee strong; heavy speculative buying.

CHICAGO—Wheat lower, possibility Argentine imports. Corn down; beneficial rains. Cattle mostly steady, top steers $7.50. Hogs unevenly 10-25 higher, top $5.

Chicago Grain

CHICAGO, July 18.—(AP)—Wheat prices jumped to new high price records at the outset Tuesday, but quickly tumbled back to well below Monday's finish. For at least the time being, speculative enthusiasm to purchase reached its peak at $1.28 1-8 a bushel for May delivery contracts. Opening 1-2 to 3-8 cents higher, wheat fell three cents from initial top figures. Corn started at 7-8 off to 1-4 up, and subsequently receded all around.

Wheat closed nervous, 3-4 to 1 1-2 cents under Monday's finish, corn 1 1-4 to 2 1-4 down, oats 1-4 to 7-8 off, rye and barley showing gains respectively of 1 1-2 to 2 3-8 and 7 3-8 to 7 3-4 cents, and provisions unchanged to 15 cents higher.

The Duke of Wellington is credited with first use of the phrase. "circumstances over which I have no control," in reference to business complications with which his son was involved in 1839 or 1840.

Rumania has more gipsies than any other country in the world, 300,000 being there.

New York Stocks

NEW YORK, July 18.—(AP)—Soaring financial markets encountered heavy profit taking clouds Tuesday after a buoyant flight to new high levels for the current upswing. Stocks were heavily traded in the early hours, but settled down to a more sedate pace as offerings increased. While some specialties showed substantial gains, the close was somewhat irregular. Transfers approximated 6,400,000 shares.

By Victor Eubank

NEW YORK, July 18.—(AP)—Financial markets roared up the ascending price trail Tuesday but were forced to hurdle huge profit-taking barriers as they reached the highest levels for the past two years or more.

Stock trading, during the early hours, was at about the fastest pace of the recent upswing and blocks of 5,000 to 30,000 shares of several of the favorites changed hands shortly after the opening. Gains of 1 to 4 or more points, however, were shaded substantially around noon and some of the alcohols even showed losses of 8 points before supporting orders enabled them to climb back.

With many of the more buoyant stocks turning irregular, the rails were taken up for advances of 1 to 3 or more. Cotton was firm, but wheat, corn and rye were a trifle nervous after initial gains of 2 or more cents a bushel. Barley soared 17 cents a bushel at one time. The dollar dropped to a new low in foreign exchange markets. Bonds were fairly firm.

The best advances in rail shares were registered by Union Pacific, Delaware and Hudson, Southern Pacific, Lackawanna and N. Y. Central. Canada Dry, Standard Brands and Crown Cork were heavy traded for gains of 1 to as much as 5. DuPont, U. S. Steel, American Telephone, Allied Chemical, Libbey-Owens, Hershey, Alaska Juneau, McIntyre Porcupine, Some, Western Union and U. S. Rubber were up 1 to 2 or more. Homestake Mining ran up around 10 points. There were a number of declines of fractions to around a point.

With the voters of Arkansas and Alabama registering their sentiments on prohibition repeal, followers of the recently buoyant alcohol stocks exhibited signs of caution by cashing in part of their extremely large gains. While 16 states have voted for repeal up to today, 36 are necessary to amend the constitution. Tennessee will ballot on the question Thursday and Oregon Friday.

On the basis of "repeal" sentiment carrying most of the states, the so-called "wet" issues have been the most spectacular gainers of the 1933 bull market. National Distillers, down to 16 7-8 this spring, got up around 125; American Commercial Alcohol, low at 13, spurted to about 90; U. S. Industrial Alcohol, jumped from 13 1-2 to 94, and various allied stocks have registered advances of several hundred per cent since March.

ROOSEVELT TALKS TO FOREST CORPS

WASHINGTON, July 18.—(AP)—President Roosevelt hopes for a future America in which rewards may be achieved "only through honest work."

Consequently, he Monday night told the nearly 300,000 hard workers in 1,400 conservation corps camps throughout the country that they are "a visible token of encouragement," the "vanguard" of the new spirit.

"You are evidence," he said, that we are seeking to get away as fast as we possibly can from soup kitchens and free rations—because the government is paying you wages and maintaining you for actual work—work which is needed now and for the future and will bring a definite financial return to the people of the nation."

Too long, he said, have many people 'sought out success as an opportunity to gain money with the least possible work." Others should look at the civilian conservation corps, he remarked, and "cast away self-destroying, nation-destroying efforts to get something for nothing."

Other words of cheer from cabinet members also went to the men and youths who are planting trees, eliminating fire hazards, protecting water sheds, building roads and the like.

City Marshal.

Monroe, La.,
July 18, 21, 27, 1933.

WOMAN BATTLES INTRUDER, SLAIN

Unwelcomed Advances Resisted; Alleged Slayer Kills Self

PONTIAC, Mich., July 18.—(AP)—A 22-year-old mother who engaged in a gun duel with an intruder in her home was dead Tuesday, her four-year-old daughter near death, and the accused slayer dead by his own hand.

The husband, at work when the tragedy occurred, said Mrs. Rose Gaylock, the slain woman, had been subjected to the unwelcome attentions of Charles King, 32, the man police said killed her.

Police found Mrs. Gaylock dead of gunshot wounds late Monday night shortly after neighbors had reported hearing shots, and the child apparently dying, her skull crushed by a heavy blow.

The husband, when police notified him at the factory where he worked, urged that King be sought. When a squad of policemen went to the house where King lived with his parents, there was a shot in an upstairs room and the fugitive was found dying of a bullet wound in his head.

King also bore wounds in the knee and hand, and police said they were inflicted by Mrs. Gaylock as she fought for her life.

GOOD WAGES—Are you seeking a place to learn a trade? Are you anxious to work and earn a good wage? Here is the answer. The old apprenticeship method was discarded years ago. Trade schools now prepare workmen for many lines of industry, saving the entrants years of time to advance in the industrial field which will within a very short period of time be seeking new, young blood for its factories. The printing industry offers splendid opportunities. The outstanding school for this industry is located at Nashville, Tennessee. For full information, terms and catalog, address Director V. C. Garriott, Southern School of Printing, 1514-16 South Street, Nashville, Tenn.

SCHOOL BOARD IS PUBLISHING DATA AS TO FINANCES

No Steps Taken As Yet to Hold Another Election

The executive committee of the Ouachita parish school board announces, in a display advertisement, appearing Sunday, that "as public officials we will call an election to vote any millage that may be requested. Should this millage be too small to operate the schools for a full term, the responsibility for this failure will rest on your (the voters) shoulders. The board has made every effort to place before the public a true statement of the facts in order that the critical situation may be known and that you have something on which to base a sound judgment."

Facts and figures are cited, showing that for the fiscal year recently ended, that the operating expenses of the parish schools were $281,741.34. The estimated income for the year 1933-34 is given as $157,668.04.

Members of the board, when interviewed Tuesday, were unable to offer any solution to the problem of financing the schools for the ensuing year, through the entire period of nine months.

As is well known, last May the voters defeated a proposed 5-mill tax, which was increased from a former tax of 3 1-2 mills to offset decrease in assessments in the parish.

If 25 per cent of the voters will sign a petition asking for the calling of another election, same can be legally held. There have been rumors that this may be done in order to re-vote the 3 1-2 mill tax, but so far as could be ascertained Tuesday, no step has been taken to this end.

Modification of Texas Trust Laws Advocated

HOUSTON, Tex., July 18.—(AP)—Some 600 south and east Texas business men in meeting here adopted by unanimous vote a resolution asking Governor Miriam A. Ferguson to call a special session of the legislature to modify Texas anti-trust laws to meet provisions of the national recovery act.

The resolution was introduced Monday at a conference called by the Houston and east Texas Chambers of Commerce, at which the home owners' loan act and the national recovery act were explained by speakers.

Revival Services Being Held at Calvary Church

With Rev. L. C. Bauer, evangelist, in charge, the Calvary Baptist church has been the scene of highly successful revival services the past week. Same are to be continued through this week, being held each night.

The public is cordially invited to attend.

SCHOOL DATES FIXED

FERRIDAY, July 18.—(Special)—It has been decided by the Concordia parish school board that all white schools in the parish will open on Monday, September 18, the negro high schools on Monday, October 16, and the negro rural schools of the parish on November 20.

HOW TO STOP HEAT RASH

Heat itch and other rashes yield instantly to medicated genuine Mexican Heat Powder. Sprinkle on a little. Rub lightly and spread of itch is stopped and joyful relief is immediate as healing begins, rawness disappears and any effect of perspiration is deodorized at once. Between-the-toes-itch, underarm irritation or odor disappear and stay away. For years genuine Mexican Heat Powder has given complete relief to the most tender skin of babies. At druggists 30c. (adv.)

WHEN YOUR DAUGHTER COMES TO WOMANHOOD

Most girls in their teens need a tonic and regulator. Give your daughter Lydia E. Pinkham's Vegetable Compound for the next few months. Teach her how to guard her health at this critical time. When she is a happy, healthy wife and mother she will thank you.

Sold at all good drug stores.

What's What in the New Laws

(EDITOR'S NOTE: This is another of a series of stories by staff writers of the Associated Press explaining new laws.)

RECAPTURE CLAUSE REPEAL

By J. H. Jenkins

WASHINGTON, July 18.—(AP)—One of the "unworkable" laws of the nation went into the limbo of repeal when congress wiped the "recapture clause" from the transportation act.

This relieved the railroads of the possibility of someday having to find $378,000,000 or more to pay into the treasury—funds that never could be used for government purposes, but which would have to be kept in trust for loans to needy carriers.

Back in 1920, when the railroads were almost as hard-pressed financially as in the last two years, a group of security holders conceived the idea of a compulsory revolving fund in the United States treasury from which roads in monetary difficulties could borrow.

The plan, backed by the late Senator Robert M. La Follette, father of the present senator from Wisconsin, was written into the Esch-Cummins railroad bill.

It provided for valuation of the railroads from rate making purposes and payment to the government of one-half of all income above an earning of six per cent, on that value, the money so taken to be used for loans to weak roads.

The Interstate Commerce Commission was given the task of enforcing the law, which from the outset was a center of contention.

About 100 short line railroads paid into the treasury slightly more than $10,000,000, most of it under protest.

A half dozen very small lines paid small sums without protest.

This fund, with interest from its investment by the treasury approximates $13,500,000 and is being returned to the roads.

The law caused a great volume of litigation. During the 13 years since enactment only about 100 tentative and final recapture orders were issued. The first of these—against the St. Louis and O'Fallon railroad, a terminal line—was carried to the United States supreme court and reversed there because of objections to valuation methods used.

The second large case, that against the Richmond, Fredericksburg and Potomac railroad, a bridge line between Washington, D. C., and Richmond, Va., was in course of litigation when the repealer was passed.

The commission, realizing the futility of pushing recapture, and the constantly increasing expense to the government, began recommending repeal as far back as 1929.

These recommendations continued every year until congress acted.

HOUSEWIFE ASKS MORE EFFICIENCY

Insistence Is Seen as Evidence of Business Pick-Up

One of the many encouraging facts brought out by an analysis of the plainly evident pick-up in business throughout the entire United States is that today's housewife is becoming more and more insistent upon efficiency, according to Standard Office Supply company, representative here for Frigidaire, subsidiary of General Motors.

Mr. Lay supported his conclusion with latest reports from the company's main offices in Dayton, Ohio, showing that the demand for electric refrigeration is growing stronger.

"This," said Mr. Lay, "proves that the American housewife has learned of the economies that can be effected through the use of electric refrigeration and this, in no small measure, is responsible for the demand for electric refrigeration that has resulted in the employment of more than 10,000 workmen in the big factories of the Frigidaire corporation at Dayton, Ohio."

Dixie Fisheries Group Reorganizes and Adopts Fair Competition Code

JACKSONVILLE, Fla., July 18.—(AP)—The Southern Fisheries Association has been reorganized and a tentative code under the industrial recovery act adopted.

The re-organized association unanimously elected George H. Dieter of Columbia, S. C., president, at a meeting here Monday.

The ethical code adopted did not, at this time, include any mention of prices, wages or hours of work, but it was explained these fundamental items would be added after a complete survey of the industry in the south.

The state's represented were Georgia, the Carolinas, Virginia, Maryland, Alabama, Louisiana and Florida.

Officers of the association included Solomon Fass of Portsmouth, Va., chairman of the board and Frank E. Welles of Pensacola, Fla., executive vice president.

POLICEMAN NO-BILLED

HOUSTON, Tex., July 18.—(AP)—Policeman Guy Thrash has been no-billed by a Harris county grand jury in connection with the slaying of W. B. Archie, shot to death Saturday night after a clothing store here had been robbed of $250. Thrash said he fired at Archie, a produce salesman, when he refused to obey an order to halt.

HAYNES FUNERAL ON WEDNESDAY AT WEST SIDE HOME

Pioneer Business Man Succumbs Suddenly On Monday

G. B. Haynes, 78, years ago one of the most important merchants in this section of the state, and pioneer in gas and oil endeavors in Ouachita and adjacent parishes, died suddenly at 2:30 o'clock Monday at his home, 1103 Trenton street, in West Monroe. He was preparing to attend the funeral of his friend, L. W. Mobley, when he was attacked with a sudden heart seizure and death occurred almost immediately.

The funeral is to be held at the house Wednesday at 10 a. m. with interment in the city cemetery.

Mr. Haynes was born in Henry county, Georgia, March 15, 1855. He came to this state in 1876, settling near Cadeville, where he farmed for four years before entering the mercantile business with W. R. Young. After four years in the mercantile business near Cadeville he came to West Monroe and established the G. B. Haynes company, one of the first general stores in West Monroe. He operated this business 28 years, before retiring to devote his entire time to the administration of extensive real estate holdings.

During the years of 1900 to 1909 he was actively interested in the lumber industry, owning and operating several mills, and was organizer of the G. B. Haynes Lumber company.

In 1879 he was married to Miss Maggie Young, who, with 13 children, survives him. The children are Mrs. R. P. Benson, Mrs. W. C. Faulk, Green B. Haynes, Mrs. W. L. Mills, Grady Haynes, Robert Haynes, Brewer Haynes, Mrs. Scott Young, John Haynes, G. L. Haynes, Miss Louise Haynes, all of the Twin Cities; Mrs. J. C. Taylor of Farmerville and Mrs. C. O. Free of Indiana.

During the many years of his life here Mr. Haynes established an enviable reputation, both as a business man and a citizen. He was at all times an active member of the Methodist Protestant church.

JUDGE TULLIS RETIRES

FERRIDAY, July 18.—(Special)—Friends here and throughout the parish will regret to learn of the recent retirement of Judge R. L. Tullis, as active dean of the law school of the Louisiana State university. Judge Tullis, a brother of Judge Hugh Tullis of Vidalia and St. Joseph, has filled the position at L. S. U. for a number of years.

Feet Won't Ache Or Burn Any More

Just soak your poor weary feet tonight in a gallon of hot water to which 3 tablespoonsful of Radox has been added.

Radox opens the pores and draws out those harmful acids which CAUSE burning, itching, pain and body misery.

Hard, coarse skin on heels and soles is dissolved. Your feet feel so young and lively—not a twinge.

A big package 45 cents—at Collens Pharmacy and all drug stores—and if not joyfully satisfied—money back. (adv)

ILLINOIS CENTRAL SYSTEM

ONLY ROAD ENTERING CHICAGO AT FAIR GROUNDS

Don't Skid!

CENTER-TREAD TRACTION GIVES YOU SAFETY!

The two greatest causes of tire accidents are *skidding* and *blowouts.* Most people know that—so almost every tire maker—eager to make a sale—now claims his tire is built to prevent both of these troubles.

But in all the hubbub—Goodyear Tires outsell any others because of these *facts:*

More traction than ANY other tire

Traction means *grip.* Brakes may stop your wheels—but it takes tire traction to stop your car. And on streets flooded with water, cars equipped with Goodyear Tires grip and stop so much better than *any other tire* that in tests the next best skidded 10% farther—while others skidded up to 77% farther than Goodyears. Goodyear Tires give you traction in the *center* of the tread—and that's where the tire contacts the road.

Blowout Protection in every Ply

Every ply of every Goodyear Tire is built with Supertwist Cord—developed and patented by Goodyear to prevent tires from breaking down and blowing out under the strain of heat and speed. And every ply runs from bead to bead. Right before your eyes, at any Goodyear dealer's—you can see why this patented ply material prevents blowouts, how it stretches and comes back long after ordinary cords have failed.

The best buy in mileage

Because Goodyear treads are tougher and wear longer—because Supertwist adds longer life to the body of Goodyear Tires—you'd naturally expect these tires to outrun others. Well, here's the proof. The most accurate mileage records are kept by the bus operators, and Goodyear Tires on thousands of buses throughout the country are *averaging* mileages that represent an *increase* of 97% in the past five years. Goodyears are *better* every year.

Prices that say "Buy Now"

All you have to do is to *look* at today's prices to know they're low. And if you look what other commodities are doing—you know that prices can't stay where they are for long. Commodity prices already have risen 50 to 100%.

Be warned in time. Better look at every wheel on your car—and replace worn, thin, risky, slippery tires with the *safest* tires on the market—*quality* tires—Goodyear Tires—at prices you may never see again.
